## **Healing Trauma Guide Stories:**

Departure Stories Elisa Bernick, 2022-10-04 We weren't religious per se. The most frequent mention of God in our house was my mother yelling Goddammit! Elisa Bernick grew up different, i.e. Jewish in the white Christian suburb of New Hope, Minnesota during the 1960s and early 1970s. At the center of her world was her mother, Arlene, who was a foul mouthed red-headed suburban Samson who ultimately shook the walls of their family until it collapsed. Poignant and provocative, *Departure Stories* peers through the broader lens of Minnesota's recent history to reveal an intergenerational journey through trauma that unraveled the Bernick family and many others. Deftly interweaving reporting, archival material, memoir, jokes, scrapbook fragments, personal commentary and one very special Waikiki Meatballs recipe, Bernick explores how the invisible baggage of place and memory, Minnesota's uniquely antisemitic history and the cultural shifts of feminism and changing marital expectations contributed to her family's eventual implosion. *Departure Stories* (Betty Crocker Made Matzoh Balls and other lies) is a personal exploration of erasure, immigrants and exiles that examines the ways departures from places, families and memory have far-reaching effects.

**Working with Trauma-Exposed Children and Adolescents** Joanna Pozzulo, Craig Bennell, 2018-12-07 Far too often children and youth experience trauma from rare events such as mass shootings, terrorism attacks and school lockdowns to very common occurrences such as bullying, exposure to drugs and alcohol or various mental health issues. They can experience these events both directly and indirectly from surfing the internet, watching television or through their friends. Our children spend a large portion of their day at school interacting with other students, teachers and school personnel where these topics are raised and discussed. This edited volume addresses how our teachers and school personnel can help students deal with these potentially traumatic events to reach the most positive possible outcomes. This collection brings together leading experts including academics and professionals working in the field to provide the most current evidence based practices on how to help students who may have experienced or witnessed trauma. It presents research and advice on how to respond to traumatic events regarding bullying, drugs and alcohol, sexual abuse, mental health, lesbian, gay, bisexual, transgender and queer (LGBTQ), safety, stranger danger, childhood disruptive behaviors, school shootings and lockdowns and terrorism. It also includes a chapter focused on how to implement a school safety program. Schools cannot deal with these issues alone; effective strategies must engage family members and the broader community. Hence the collection includes a chapter on how schools can partner with families and the communities they reside in to bring about positive change. All this work pays close attention to cultural and religious sensitivity, socio-economic variabilities, diversity issues and developmental stages.
