Gary,1999-04 **Destroying America - The Real Issues That Politicians Avoid** Chris Florio,2007-11 A non partisan comprehensive look at the true problems facing our government and society Why these issues can no longer wait to be addressed we must get our own house in order The changes that will be coming at America in the coming years will come from every direction and will pose bigger challenges to our society like nothing before No longer will we have to only address our own problems but problems on a global scale The entire world and global economy is changing more rapidly than ever and our national debt boomers retiring and social security are only a few of our current domestic problems which must be solved before we will be ready to take on new challenges As other major countries industrialize at a rapid pace the challenges to America will be like nothing we are accustomed to No longer will we be the dominant economic power and getting our affairs in order before these major shifts occur will be paramount to our ability to handle these changes maybe even our survival as a nation Chicago ,2007 **Why Can't We Make Money in Aviation?** Adam M. Pilarski,2016-02-11

Seemingly since the beginning of aviation history there has been discussion and speculation on the remarkable inability of the industry to generate profits This is even more so the case now when a number of the world's airlines are bankrupt The failure of aviation or at least of airlines to produce a reasonable rate of return on investments has been a fact pondered by many at great length but never satisfactorily understood Somehow the industry seems to violate the most basic principles of economics and business The question as to how this is the case and how the industry managed to survive let alone actually grow and prosper so far is the subject of this book It details the historical performance of the industry and critically explores the various theories proposed to explain its lack of profitability Summarizing the analysis the book also looks to the future combining lessons from the past and recommendations regarding the better management of airlines In conclusion it offers a prediction on the future of the global airline industry **Forbes** ,1999 **Beat the System!** Lisa Bennett,1997 Stores
