*Courtyards for Modern Living* Stephen Crafti,2008 Gardens have changed significantly over the last couple of decades

and clever architects and designers know that incorporating an outdoor living space can improve a dwelling's aesthetic not to mention its value. In the 1980s manicured lawns framed with box hedges and annuals were a common site. It seemed that both space and water supply were unlimited. *Courtyards for Modern Living* presents beautiful gardens which have been designed for locations around the world that represent the changed reality of drier climates and heralded a preference for native species, drought tolerant plants and even a new popularity of the humble succulent. Contemporary houses also reflect a move towards enjoying larger houses built on smaller sites so that available space is turned into a multifunctional courtyard that is usually accessed from the kitchen and living areas. Author Stephen Crafti's *Beach Houses Down Under H2O* and *Ultimate Urban Makeover* presents an inspired study of what makes outdoor rooms so appealing. Including many tips to guide the architect or the DIY enthusiast, *Courtyards for Modern Living* features courtyards, balconies and gardens that are extensions of the very house itself. Essays, drawings, plans and over 200 black and white photographs document the courtyard housing in Los Angeles. The style expressed in both grand and humble dwellings was at its height in the 1920s and 1930s but is still around to provide privacy and greenspace in the dense urban area. Courtyard housing is one of the oldest forms of domestic development, spanning at least 2000 years and occurring in distinctive form in many regions of the world. Traditionally associated with the Middle East where climate and culture have given shape to a particular type of courtyard housing, other examples exist in Latin America, China and in Europe where the model has been reinterpreted. This book demonstrates through discussions on sustainability and regional identity and via a series of case studies, technical planning and design solutions that the courtyard housing form has a future as well as a past.
