

CLEAR WITHOUT ENTRY: CENTER-FED CLOSED DOOR

STEP 3 - Use the Door to Your Advantage

Which way the door opens and which side the hinges are on is not critical. However, if the door opens inward it is ideal to open the door from the doorknob side if possible. This is because as the door swings inward and you are backing away, the opening door will momentarily conceal you as you back away. If the door opens outward, it is ideal to open the door from the hinges side (opposite the doorknob) for the same reason. The opening door will provide at least some degree of concealment and protection, even though it is probably not bulletproof. When opening the door, make sure to step out of the way and let the door swing open in front of you so it does not interfere with your vision or your weapon.

If the door opens inward it is best to open the door from the doorknob side

If the door opens outward it is best to open the door from the hinges side
