Nigeria's Educational System* Joseph A. Balogun, 2023-09-20 This book assesses the challenges within the Nigerian
educational system and provides a concrete plan to revitalize the low performing system by strengthening high stakes testing
at all levels In Nigeria many citizens believe that the solution to the country's low performance in education is to eliminate
high stakes standardized testing High stakes testing refers to applying standardized student achievement tests as a primary
mechanism to evaluate students teachers and their school's performance This book argues that the poor quality of education
and low ranking of Nigeria's educational system is not related to the negative consequences of high stakes testing but rather
is due to many intrinsic factors By conducting a comparative analysis of six high performing education systems worldwide the
book offers a comparative summative evaluation of the educational system and offers recommendations This book will be of
