It provides candidates with reliable knowledge based on this document and thus distinguishes itself from all the information about ISTQB syllabi and exams on the Internet which is often of rather poor quality and may even contain serious errors. The book expands and details many issues that are described in the new 2023 version of the syllabus in a perfunctory or general way only. According to the ISTQB guidelines for syllabus based training an exercise must be provided for each learning objective at the K3 level and a practical example must be provided for each objective at the K2 or K3 level. In order to satisfy these requirements the authors prepared numerous exercises and examples for all learning objectives at these levels. In addition for each learning objective one or more sample exam questions are presented which are similar to those that the candidate will see in the exam. This makes the book an excellent aid for studying and preparing for the exam and verifying acquired knowledge      **A Self-Study Guide for the ISTQB Agile Foundation Exam (CTFL-AT)** Chhavi Raj Dosaj,2019-12-22 This book is written specifically for all the candidates who are planning to self study for the ISTQB Agile Foundation Exam CTFL-AT.
