Reddit Discussions Framework:

From Text to Understanding Miloš Švaňa, František Zapletal, Miroslav Hudec, 2025-09-26 Social media and other sources of text data are still underutilized resources in public decision making. Most public organizations and governmental bodies rely mainly on surveys, interviews, and other traditional methods for gathering opinions. One issue is a lack of easy-to-use tools for mass text data processing that would enable these organizations to process and understand this type of data. This book introduces a novel text data analysis framework designed for public decision making specifically on the level of municipalities. The framework combines sentiment analysis with topic modelling and a fuzzy-based approach for capturing the diversity in sentiment arising from the fact that different people have different opinions on a given topic. The book is recommended for practitioners in public decision making as well as researchers analyzing large amounts of text data in order to understand people's opinions.

Online Social Networks in Business Frameworks Sudhir Kumar Rathi, Bright Keswani, Rakesh Kumar Saxena, Sumit Kumar Kapoor, Sangita Gupta, Romil Rawat, 2024-09-17 This book presents a vital method for companies to connect with potential clients and consumers in the digital era of Online Social Networks (OSNs). Utilizing the strength of well-known social networks and AI to achieve success through fostering brand supporters, generating leads, and enhancing customer interactions. There are currently 4.8 billion Online Social Network (OSN) users worldwide. *Online Social Networks in Business Frameworks* presents marketing through online social networks (OSNs) which is a potent method for companies of all sizes to connect with potential clients and consumers. If visitors are not on OSN sites like Facebook, Twitter, and LinkedIn, they are missing out on the fact that people discover, learn about, follow, and purchase from companies on OSNs. Excellent OSN advertising may help a company achieve amazing success by fostering committed brand supporters and even generating leads and revenue. A type of digital advertising known as social media marketing (SMM) makes use of the strength of well-known social networks to further advertise and establish branding objectives. Nevertheless, it goes beyond simply setting up company accounts and tweeting whenever visitors feel like it. Preserving and improving profiles means posting content that represents the company and draws in the right audience such as images, videos, articles, and live videos addressing comments, shares, and likes while keeping an eye on the reputation to create a brand network and following and interacting with followers, clients, and influencers.

Artificial Intelligence Research and Development Karina Gibert, Enric Plaza, 2018-10-15 It is almost impossible today to find an economic sector or aspect of society which does not involve AI techniques in some way. This pervasive technology has become indispensable in a multitude of ways from supporting decision making to managing digital devices such as smart sensors, mechanical arms, or artificial eyes. The ability of AI to emulate intelligence in the resolution of challenging problems has placed it at the centre of problem solving in all areas of our society. This book presents contributions from CCIA 2018, the 21st International Conference of the Catalan Association for Artificial Intelligence, which took place in Alt Empordà, Catalonia, Spain, on 8-10th October 2018. The book aims

to provide a picture of what is being achieved and what is under development in AI today As such its contents represent the diversity of approaches and applications currently being researched but it also presents invited contributions which deal with some of the challenges that will have to be faced in the decade to come The contributions included in this book are organized under the following headings logic satisfiability and fuzzy sets classifiers networks and machine learning data science recommender systems and case based reasoning natural language and sound processing cognitive systems and agents and computer vision and robotics The book also covers a number of current AI challenges and new trends like big data spatial problem solving ethics and AI and how blockchain impacts AI Providing an up to the minute overview of current AI technology and research this book will be of value to all those with an interest in the subject

Forum Linguisticum, 1979 **Memes in Frame-Semantic Perspective** Niels Brause, 2017-03-07. Bachelor Thesis from the year 2016 in the subject English Language and Literature Studies, Linguistics grade 1.3, University of Duisburg-Essen, Department of Anglophone Studies, language English, abstract. One cannot escape them because they are everywhere. There is scarcely a day without one coming across them. They are a humorous picture, a witty message or a funny video you find on the internet. They are in our newsfeed, on our message boards or in personal messages from our friends. These sources of entertainment seem to be by now an important element of today's web society and there is a huge number of image boards like 9gag.com or reddit.com which have no other purpose than satisfying our needs for these sources of entertainment. Even a growing number of newspapers have started to include this type of content in their online platforms. A term that is often used to describe this accumulation of different visual entities is the term 'memes', but this term is vague and ambiguous and it does not specifically say what kind of phenomena are included in it. This bachelor thesis is an attempt to establish these phenomena, labelled as 'memes', as valuable objects for linguistic studies. It will glance at several linguistic theories and check their relevance for analysing image macros as representatives for memes in general. Finally, it will analyse image macros by using the frame semantic framework, thus integrating the former accomplished insights in one theoretic framework with only a few central terms. This will support the thesis that frame semantics is capable of describing the
