    <u>Assessing Emotional Intelligence</u> Peter Carblis,2014-05-14 In this groundbreaking book the author advocates that many relational collapses are the result of ineptitude rather than ill will That is they are the result of a lack of skills rather than a lack of goodwill As this book puts it many societys relational problems may be competency related This might be good news since competencies can be learned The purpose of this book is to take a careful look at how such competencies can be developed Beginning with the view that if such competencies can be learned they must first be defined and have standards set for them it asks the question Can competency standards be designed for soft skills It is argued that the answer is yes Locating itself in the workplace context where adults often spend most of their lives but relevant to life in general this book shows how theoretically sound competency standards can be developed for selected soft skills This is done by adapting a methodology used to specify workplace competency standards The book also notes a number of practical and ideological issues that must be considered at implementation This book shows how standards for three such skills have been developed and provided with a preliminary workplace validation The skills selected are related to interpersonal skills and are derived from the framework of emotional intelligence competencies popularised by Goleman This is an important book for those in business studies   *Competency & Emotional Intelligence Benchmarking* ,2006   <u>Permission to Feel</u> Marc Brackett, Ph.D.,2019-09-03 The mental well being of children and adults is shockingly poor Marc Brackett author of Permission to Feel knows why And he knows what we can do We have a crisis on our hands and its victims are our children Marc Brackett is a professor in Yale University s Child Study Center and founding director of the Yale Center for Emotional Intelligence In his 25 years as an emotion scientist he has developed a remarkably effective plan to improve the lives of children and adults a blueprint for understanding our emotions and using them wisely so that they help rather than hinder our success and well being The core of his approach is a legacy from his childhood from an astute uncle who gave him permission to feel He was the first adult who managed to see Marc listen to him and recognize the suffering bullying and abuse he d endured And that was the beginning of Marc s awareness that what he was going through was temporary He wasn t alone he wasn t stuck on a timeline and he wasn t wrong to feel scared isolated and angry Now best of all he could do something about it In the decades since Marc has led large research teams and raised tens of millions of dollars to investigate the roots of emotional well being His prescription for healthy children and their parents teachers and schools is a system called RULER a high impact and fast effect approach to understanding and mastering emotions that has already transformed the thousands of schools that have

adopted it RULER has been proven to reduce stress and burnout improve school climate and enhance academic achievement This book is the culmination of Marc s development of RULER and his way to share the strategies and skills with readers around the world It is tested and it works This book combines rigor science passion and inspiration in equal parts Too many children and adults are suffering they are ashamed of their feelings and emotionally unskilled but they don t have to be Marc Brackett s life mission is to reverse this course and this book can show you how **Therapeutic Reasoning in Occupational Therapy - E-Book** Jane Clifford O'Brien,Mary Beth Patnaude,Teressa Garcia Reidy,2021-12-24 Build the clinical reasoning skills you need to make sound decisions in OT practice Therapeutic Reasoning in Occupational Therapy How to Develop Critical Thinking for Practice uses practical learning activities worksheets and realistic cases to help you master clinical reasoning and critical thinking concepts Video clips on the Evolve website demonstrate therapeutic reasoning and show the diverse perspectives of U S and international contributors Written by OT experts Jane Clifford O Brien Mary Elizabeth Patnaude and Teressa Garcia Reidy this how to workbook makes it easier to apply clinical reasoning in a variety of practice settings Dynamic interactive approach reinforces your understanding with learning activities in each chapter Case studies and experiential learning activities flow from simple to complex and represent occupational therapy across the lifespan AOTA s Occupational Therapy Practice Framework 4th Edition and current OT practice are reflected throughout the book Practical learning activities and templates are clinically relevant and designed to support reasoning in a variety of practice settings Video clips on the Evolve website are contributed by practitioners educators and students reinforcing content and showing how therapeutic reasoning applies to real world cases Worksheets and or templates are included in each chapter to enhance learning and for use in practice Assessments in each chapter measure therapeutic reasoning outcomes Student and practitioner resources on Evolve include printable PDFs of the in text worksheets video clips additional case examples templates for assignments exemplars and reflective activities **Confident Communication** Pryor Learning,2025-12-16 The importance of effective communication in the workplace cannot be understated Verbal and non verbal communication are critical skills in every successful workplace at the team and employee level as well as in your personal relationships From knowing how and when to de escalate tense situations to dealing with a difficult employee to enhancing your emotional intelligence to listening effectively with your spouse or significant other learning how to communicate clearly and professionally is key to organizational growth longevity and productivity In this compelling idea paced book Confident Conversations you will learn how to communicate with others in an assertive yet non threatening and understanding way You ll learn how to Communicate with a high level of emotional intelligence Identify key techniques for electronic communication as well as situations to avoid when using electronic communication Manage and handle difficult situations that cause frustration and conflict Master a first impression that is a positive and lasting using proven strategies Adapt and speak in the communication style of others Understand how body language conveys secret communication
