

## Selecting Network Devices

### Managing Devices (Cont.)

- A basic router configuration includes the hostname for identification, passwords for security, assignment of IP addresses to interfaces for connectivity, and basic routing.
- Verify and save configuration changes using the copy running-config startup-config command. To clear the router configuration, use the erase startup-config command and then the reload command.
- Some of the most commonly used IOS commands to display and verify the operational status of the router and related IPv4 network functionality are:
- show ip protocols
- show ip route
- show interfaces
- show ip interfaces
- show ip interface brief
- show protocols

```
R1# show ip interface brief
