**T. F. Torrance's Reconstruction of Natural Theology** Alexander J. D. Irving, 2019-07-15 T F Torrance's proposal for natural theology constitutes one of the most creative and provocative elements in his work. By reenvisioning natural theology as the cognitive structure of theology determined by God's self-revelation in Jesus Christ and not as the task of philosophically reflecting on the nature or existence of God aside from religious presuppositions, Torrance moves through and beyond Barth's resistance to natural theology. This book establishes Torrance's unique reconstruction of natural theology within its proper intellectual context, providing a fresh analysis of this important methodological innovation as it emerges from Torrance's realist epistemology. As Irving demonstrates in Torrance's distinctive conception of science, he operated with an approach to cognition that functions via a realist synthesis of experience and understanding. And in Torrance's theological science, this synthesis of experience and understanding is the synthesis of revealed theology and natural theology. The author argues that this reconstruction of natural theology expresses a dramatic vision for human agency within theological cognition, adding the necessity of the human knowing subject to the priority of the divine revealer. Finally, this book marries Torrance's accomplishments in reconstructing natural theology to his Christocentric theological method in which God is both revealed and known in the person of Jesus Christ, fully God and fully human.

*Trinitarian Grace and Participation* Geordie W. Ziegler, 2017-02-01 Geordie W. Ziegler offers an exploration of the concept of grace in the thought of T F Torrance and what it means for understanding the Christian life as participation in Christ's ongoing humanity. He clarifies Torrance's claim that Christ's vicarious humanity intensifies rather than lessens the necessity of human response to God in sacrificial and Christ-like service. Specifically, Ziegler demonstrates the centrality of Torrance's concept of grace across the dogmatic spectrum and argues that grace for Torrance is a downward twofold movement from and to the Father through the Son in the Spirit. This understanding of grace distinctly defines the Christian life as the gift of sharing in the Son's relation with the Father through the Spirit. This project is distinct in that it articulates a Trinitarian approach to grace which spans the entire dogmatic spectrum. Part One considers grace as a movement of the Trinity expressed in the economy of salvation. Part Two applies this understanding of grace to the human person. It traces the way in which human beings through the Holy Spirit participate in Christ's Sonship within the three concentric levels of anthropology, ecclesiology, and personal formation in Christ.

Water and Energy International, 2017 **The Black International. L'International noire** Emiel Lamberts, 2002 This book outlines the history of the Black International, a secret organisation directly linked to the Vatican which brought together the leaders of the Catholic committees in nine European countries. The organisation tried to stem the tide of liberalism, socialism, and nationalism that threatened the Catholic Church at the end of the 19th century. The story of the origins, workings, and ending of this International at times seems like a detective story. The book offers an extensive discussion of the influence of this organisation on the press policy and the international position of the Vatican. It also explores its impact on the

development of militant Catholicism and through its after effects in the Union of Fribourg 1884 1891 on the emergence of social Catholicism in Europe L Internationale noire tait une association secrète qui groupait les chefs de file des comités catholiques de neuf pays européens Elle essaya de faire front contre les trois courants qui menaient l'Eglise catholique la fin du XIXe siècle le libéralisme le socialisme et le nationalisme Cette Internationale noire dépendait directement du Vatican. Analytant l'histoire de la naissance du fonctionnement et de la dissolution de cette organisation secrète le présent ouvrage ressemble quelquefois un roman policier Il accorde également une grande attention à l'influence exercée par ce réseau sur la politique de presse et sur la politique internationale du Vatican Enfin il évalue son impact sur le développement du catholicisme militant puis travers son prolongement dans l'Union de Fribourg 1884 1891 sur la période du catholicisme social en Europe    **English Mechanic and Mirror of Science** ,1909    **The Catholic Periodical and Literature Index** ,1965
