Links to Learning National Institute on Out-of-School Time (U.S.), 2005. Get all the tools your after-school program needs for a well-balanced program. This resource provides an overview of learning and child development, offers tips and tools for selecting, planning, developing, and evaluating after-school activities, and demonstrates how to link these activities to sample learning and quality standards. The book also introduces the reader to curriculum resources focusing on seven key learning areas believed to be central to comprehensive high-quality after-school programs.

*Teaching and Learning Mathematics* Linda Jensen Sheffield, Douglas E. Cruikshank, 2004-03-29. Help students make sense of mathematics. Rather than merely discussing how to improve students' ability to do mathematics, this fifth edition focuses on helping them make sense of mathematics. Based on research on the functioning of the mind as it engages in learning, the text supports teachers as they promote mathematical understanding, strengthen students' abilities to think, and help students to attain computational fluency. Features a rich collection of ready-to-use learning activities. Fully integrated language and intent of Principles and Standards for School Mathematics (PSSM). A greater emphasis on problem solving and higher-level thinking. A greater focus on teaching mathematics to diverse learners. Descriptions of a variety of promising and effective mathematics programs for the K-8 levels.
