Leaders go about their daily task of implementing the organisation's strategy to deliver financial results. All of a sudden there is a change explosion that disrupts normal day to day operations. This is the leadership paradox: implementing change versus delivering day to day operations. Leaders then need to adjust their focus to implement the change so that the organisation stays ahead of the competition and continues to deliver revenue to its shareholders. That means the change has to ensure a return on investment, full employee change adoption and sustainable change. Leadership of Change Volume 1 represents the author's experiences throughout his career; it provides ten practical stories of typical and consistent change management challenges that organisations and leaders experience when implementing organisation change, transitioning their organisation from the current A state to the future B state. Potential solutions are introduced which are developed in Volumes 2 and 3. This book includes illustrations as well as the a2B Change Management Framework a2BCMF, the AUILM Employee Change Adoption Model and the a2B5R Employee Behaviour Change Model Change Management Pocket Guide. This pocket guide contains over thirty concepts, models, figures, assessments, tools, templates, checklists, plans, a roadmap and glossary structured around the ten step a2B Change Management Framework. About this Book: This pocket guide is a practical hands on guide built around the a2B Change Management Framework a2BCMF with over thirty models, tool and change concepts. It is designed to support change practitioners delivering hands on organisational change. The pocket guide supports a programme approach to organisational change starting with change definition, strategy alignment and moving through to closing and sustain the change. The ten step a2BCMF is supported by over thirty concepts, a change adoption model, a behavioural change model, figures, assessments, tools, templates, checklists and plans as well as a roadmap and glossary. It covers the key change management concepts such as sponsorship, communications, readiness, resistance and adoption.
