## **Conceiving Masculinity Male Infertility Medicine And Identity:**

**Conceiving Masculinity** Liberty Walther Barnes, 2014-04-25 In *Conceiving Masculinity* Liberty Walther Barnes puts the world of male infertility under the microscope to examine how culturally pervasive notions of gender shape our understanding of disease and how disease impacts our personal ideas about gender Taking readers inside male infertility clinics and interviewing doctors and couples dealing with male infertility Barnes provides a rich account of the social aspects of the confusing and frustrating diagnosis of infertility She explains why men resist a stigmatizing label like infertile and how men with poor fertility redefine for themselves what it means to be manly and masculine in a society that prizes male virility *Conceiving Masculinity* also details how and why men embrace medical technologies and treatment for infertility Broaching a socially taboo topic Barnes emphasizes that infertility is not just a women's issue She shows how gender and disease are socially constructed within social institutions and by individuals

**How is a Man Supposed to be a Man?** Robin A Hadley, 2021-09-17 The global trend of declining fertility rates and an increasingly ageing population has serious implications for individuals and institutions alike Childless men are mostly excluded from ageing social science and reproduction scholarship and almost completely absent from most national statistics This unique book examines the lived experiences of a hidden and disenfranchised population men who wanted to be fathers It explores the complex intersections that influence childlessness over the life course

**Intracytoplasmic Sperm Injection** Gianpiero D. Palermo, E. Scott Sills, 2018-01-02 This unique comprehensive text on the male factor infertility experience centers on the current background applications and techniques for intracytoplasmic sperm injection ICSI one of the more commonly utilized procedures in modern assisted reproduction for male infertility offering insights into the rationale and indications for ICSI and providing an up to date discussion on male factor diagnostic tests and microsurgical techniques for ICSI itself Topics covered include the role of reproductive genetics the effects of paternal age the assessment development and selection of functional human spermatozoa e.g. Comet assay both naturally and in the laboratory and the procedures by which these sperm are injected directly into an oocyte Comparisons are made between efficacy rates of ICSI versus conventional IVF strategies and clinical approaches to fertilization failures following ICSI are presented and intracytoplasmic morphologically selected sperm injection IMSI is discussed in detail in a chapter of its own Bringing together the latest evidence and written by international leaders in the field *Intracytoplasmic Sperm Injection Indications Techniques and Applications* is a unique and accessible resource for reproductive endocrinologists andrologists geneticists and infertility practitioners and researchers alike

**Recalibrating Stigma** Gareth Thomas, Oli Williams, Tanisha Spratt, Amy Chandler, 2025-06-16 Available open access digitally under CC BY NC ND licence *Stigma* has long been a central concern for social scientists studying health and illness Yet in existing work stigma often escapes definition and clarification is treated as universal and constant and becomes a vague catch all term for a range of conditions and situations This book initiates a process of recalibrating the conceptualisation of stigma The book

features original analyses from early and mid career scholars focusing on diverse issues including mental health racism sex HIV reproduction obesity eating disorders self harm exercise drug use COVID 19 and disability This ambitious book offers new perspectives to stimulate and intensify conversations around stigma and highlights the valuable contributions of sociological approaches to understanding health and illness      **The Transition to Parenthood after IVF** Helen

Allan, Ginny Mounce, 2023-08-29 This book explores how experiences of IVF can affect the transition to parenthood for non donor infertile couples Drawing on empirical research and the broader social sciences literature the book sets out the context of complex modern family building and discusses how infertility and IVF continue to shape parenthood and family building after successful IVF conception It looks at how stigma disclosure loss and gender affect the transition to parenthood as well as what happens when parents start thinking about trying for siblings We highlight the key roles for health care professionals nurses midwives and health visitors when caring for these new parents in providing social support and facilitating good communication to foster emotional well being Ideal for nurses and midwives working in reproductive health as well as primary care nurses and health visitors this applied text is a key reference for all healthcare professionals who meet people at any point on their journey to achieving pregnancy through IVF during maternity care and through the first few years of parenthood      *The Routledge History of American Science* Timothy W. Kneeland, 2022-12-01 The Routledge History of

American Science provides an essential companion to the most significant themes within the subject area The field of the history of science continues to grow and expand into new areas and to adopt new theories to explain the role of science and its connections to politics economics religion social structures intellectual history and art This book takes North America as its focus and explores the history of science in the region both nationally and internationally with 27 chapters from a range of disciplines Part I takes a chronological look at the history of science in America from its origins in the Atlantic World through to the American Revolution the Civil War the World Wars and ending in the postmodern era Part II discusses American science in practice from scientists as practitioners laboratories and field experiences to science and religion Part III examines the relationship between science and power The chapters touch on the intersection of science and imperialism environmental science in U S politics as well as capitalism and science Finally Part IV explores how science is embedded in the culture of the United States with topics such as the growing importance of climate science the role of scientific racism the construction of gender and how science and disability studies converge The final chapter reviews the way in which society has embraced or rejected science with reflections on the recent pandemic and what it may mean for the future of American science This book fills a much needed gap in the history and historiography of American science studies and will be an invaluable guide for any student or researcher in the history of science in America      *Egg Freezing, Fertility and Reproductive Choice* Kylie
