An Analysis of

Ernest Gellner's Nations and Nationalism Dale Stahl, 2017-07-05 To the dismay of many commentators who had hoped the world was evolving into a more tolerant and multicultural community of nations united under the umbrellas of supranational movements like the European Union the nationalism that was such a potent force in the history of the 20th century has made a comeback in recent years. Now more than ever it seems important to understand what it is how it works and why it is so attractive to so many people. A fine place to start any such exploration is with Ernest Gellner's seminal Nations and Nationalism a ground breaking study that was the first to flesh out the counter intuitive but enormously influential thesis that modern nationalism has little if anything in common with old fashioned patriotism or loyalty to one's

homeland Gellner's intensely creative thesis is that the nationalism we know today is actually the product of the 19th century industrial revolution which radically reshaped ancient communities encouraging emigration to cities at the same time as it improved literacy rates and introduced mass education. Gellner connected these three elements in an entirely new way contrasting developments to the structures of pre-industrial agrarian economies to show why the new nationalism could not have been born in such communities. He was also successful in generating a typology of nationalisms in an attempt to explain why some forms flourished while others fizzled out. His remarkable ability to produce novel explanations for existing evidence marks out *Nations and Nationalism* as one of the most radical, stimulating and enduringly influential works of its day.

Study Guide: the Growth of Nationalism Ian MacMillan, **GALE RESEARCHER GUIDE FOR MICHAEL SCHURING**, 2018 *GALE RESEARCHER GUIDE FOR JOHN MATTHEW BARLOW*, 2018 **Encyclopaedia of Nationalism** Athena Leoussi, 2018-02-06

Since the end of the internationalist Soviet experiment in 1989 nationalism is now recognized as a positive vital force in modern political, cultural and social life if kept in check from excess. As a result of the explosion of nationalism there has been a veritable resurgence of nationalism studies. This proliferation calls for a survey of instruments which have been developed by scholars for the study of nationalism. The *Encyclopaedia of Nationalism* brings together leading scholars in nationalism studies to survey this complex phenomenon. With over one hundred entries the *Encyclopaedia of Nationalism* offers a complete and concise set of tools for the study of nationalism in a single volume. The focus throughout is theoretical and for this reason particular nationalist movements and individual leaders are treated only as illustrative historical and contemporary cases in numerous entries. The *Encyclopaedia* is organized in an alphabetical sequence of entries each of which includes a short bibliography for further reading. The reader will find in-depth discussions of the work of modern theoreticians of nationalism. The defining figures of the eighteenth and nineteenth centuries including Herder, Rousseau, Fichte, Marx and Renan. Conceptual entries are treated historically and sociologically. Crucial, influential ideas and phenomena that continually redefine themselves with changing historical circumstances among them anti-Semitism, art and nationalism, assimilation, class and nation, decolonization, ethnic competition, genocide, language and nation, multiculturalism, religion and nation, state and nation, and xenophobia are treated in depth. A special attraction of this volume is its essay long entries many of which have been written by the scholars who developed them. The *Encyclopaedia of Nationalism* discusses in lucid terms from an interdisciplinary perspective the central issues, debates, concepts and theories available to students and scholars of nationalism. As such it is the most comprehensive and authoritative guide to the subject in all its varied manifestations and implications. It will be an essential tool for historians, political scientists, sociologists and scholars of the history of ideas.
