Lange, 1978-03-31 These volumes 3 and 4 of Fracture Mechanics of Ceramics constitute the proceedings of an international symposium on the fracture mechanics of ceramics held at the Pennsylvania State University, University Park, PA on July 27-28 and 29, 1977. Volumes 1 and 2 were published previously as the proceedings of a symposium of the same name held July 11-12 and 13, 1973 also at Penn State. All four volumes published to date concentrate on the fracture aspects of the mechanical behavior of brittle ceramics in terms of the characteristics of cracks. The program chairmen gratefully acknowledge the financial assistance for the symposium provided by the Office of Naval Research, the Energy Research and Development Administration and the Army Research Office. Without their support the quality and magnitude of this conference simply would not have been possible. Numerous individuals contributed to the success of the conference but unfortunately they cannot all be listed here. However, the program chairmen would especially like to recognize the contributions of Penn State Conference Coordinator Mr. Ronald Avillion whose expertise in planning and organization was indispensable. Dr. Fred R. Matson for his interesting after dinner speech and Drs. A. M. Diness, J. C. Hurt and D. W. Readley for their encouragement and valuable suggestions regarding the program. Finally we wish to also thank our joint secretaries for the patience and help in bringing these proceedings to press. Archives of Mechanics, 1998 Journal of Applied
