**Conceptual Development of 20th Century Field Theories** Tian Yu Cao,2019-10-03 An overview of the conceptual and historical foundations of fundamental field theories including their underlying issues logic and dynamics , **The International Journal for Field-being** ,2002 **The Structural Foundations of Quantum Gravity** Dean Rickles,Steven French,Juha T. Saatsi,2006-11-16 Quantum gravity is the name given to a theory that unites general relativity Einstein s theory of gravitation and spacetime with quantum field theory our framework for describing non gravitational forces The Structural Foundations of Quantum Gravity brings together philosophers and physicists to discuss a range of conceptual issues that surface in the effort to unite these theories focusing in particular on the ontological nature of the spacetime that results Although there has been a great deal written about quantum gravity from the perspective of physicists and mathematicians very little attention has been paid to the philosophical aspects This volume closes that gap with essays written by some of the leading researchers in the field Individual papers defend or attack a structuralist perspective on the fundamental ontologies of our physical theories which offers the possibility of shedding new light on a number of foundational problems It is a book that will be of interest not only to physicists and philosophers of physics but to anyone concerned with foundational issues and curious to explore new directions in our understanding of spacetime and quantum physics **Einstein, Tagore and the Nature of Reality** Partha Ghose,2016-06-23 The nature of reality has been a long debated issue among scientists and philosophers In 1930 Rabindranath Tagore and Albert Einstein had a long conversation on the nature of reality This conversation has been widely quoted and discussed by scientists philosophers and scholars from the literary world The important question that Tagore and Einstein discussed was whether the world is a unity dependent on humanity or the world is a reality independent on the human factor Einstein took the stand adopted by Western philosophers and mathematicians namely that reality is something independent of the mind and the human factor Tagore on the other hand adopted the opposite view Nevertheless both Einstein and Tagore claimed to be realists despite the fundamental differences between their conceptions of reality Where does the difference lie Can it be harmonized at some deeper level Can Wittgenstein for example be a bridge between the two views This collection of essays explores these two fundamentally different conceptions of the nature of reality from the perspectives of theories of space time quantum theory general philosophy of science cognitive science and mathematics The Philosophy of Physics Roberto Torretti,1999-10-28 Pursues the development of physics from Galileo and Newton to Einstein and the founders of quantum mechanics **Urban Transformations and Sustainability** A. Van Bilsen,2006 The conditions of urban development are changing rapidly technological transformations new transportation and distribution systems communication technologies globalisation and environment problems all cause new challenges This work reflects the efforts to redefine the discipline of urbanism under globally changing conditions **Historical Studies in the Physical and Biological Sciences** ,1998 **American**
