Fawcett, Paul Torremans, 2011-02-17 This volume examines the protection and exploitation of intellectual property rights along with international problems relating to which court has jurisdiction and which is the relevant law in foreign cases and judgments **Cross-Border Trade Secret Disputes in the**

European Union Lydia Lundstedt, 2023-10-06 With the rise of international trade and innovation there has been an increase in cross border trade secret violations Using common trade secret scenarios as a springboard for analysis the book questions whether EU private international law rules can be interpreted to facilitate the objective of the EU Trade Secret Directive and in doing so provides a detailed examination of both regimes Trade Related Aspects of Intellectual Property Rights Carlos

Correa, 2020-07-23 The TRIPS Agreement is the most comprehensive and influential international treaty on intellectual property rights It brings intellectual property rules into the framework of the World Trade Organization obliging all WTO Member States to meet minimum standards of intellectual property protection and enforcement This has required massive changes in some national laws particularly in developing countries This volume provides a detailed legal analysis of the provisions of the TRIPS Agreement as well as elements to consider their economic implications in different legal and socio economic contexts This book provides an in depth analysis of the principles and of the substantive and enforcement provisions of the TRIPS Agreement the most influential international treaty on intellectual property currently in force It discusses the legal context in which the Agreement was negotiated the objectives of their proponents and the nature of the obligations it created for the members of the World Trade Organization In particular it examines the minimum standards that

must be implemented with regard to patents trademarks industrial designs geographical indications copyright and related rights integrated circuits trade secrets and test data for pharmaceutical and agrochemical products Trade Related Aspects of Intellectual Property Rights A Commentary on the TRIPS Agreement elaborates on the interpretation of provisions contained in said Agreement in the light of the customary principles for the interpretation of international law The analysis which is supported by a review of the relevant GATT and WTO jurisprudence identifies the policy space left to such members to implement their obligations in accordance with their own legal systems and public policy objectives including in respect of complex issues such as patentability criteria compulsory licenses exceptions and limitations to copyright border measures injunctive relief and the protection of test data under the discipline of unfair competition Concise IP Series Thomas Dreier, Charles Gielen, Richard J.
