Concise Manual of the Law Relating to Private Trusts and Trustees (Classic Reprint) Arthur Underhill, 2015-07-08 Excerpt from Concise Manual of the Law Relating to Private Trusts and Trustees Every person who has had practical experience as a lawyer divides his professional knowledge into two distinct heads namely first his habitual knowledge that knowledge of the rules of law which is laid up in his memory so that whenever he has reason to apply those rules they are accurately recalled without external aid and secondly his knowledge of the storehouses so to speak where he can get the actual knowledge of any branch of law of which he is uncertain Now of storehouses of law we have an ample supply Putting aside the various digests no works could well be more complete and detailed than Mr Dart's Book on Vendors and Purchasers Mr Jarman's on Wills Mr Chitty's on Contracts Mr Addison's on Torts Mr Justice Lindley's on Partnership and last but far from least Mr Lewin's Model Treatise on Trusts Again we have smaller but singularly complete summaries of case law in Mr Roscoe's Nisi Prius Evidence and Mr Watson's excellent Compendium of Equity a book which ought to be in the hands of every practical lawyer About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works

Publishers' circular and booksellers' record, 1878 **The Law Times**, 1882 **Equity Today** Ben McFarlane, Steven Elliott KC, 2023-06-29 This book presents a clear carefully analysed picture of the operation of equity today

across the common law world Rather than revisit the abstract debate as to whether or not equity has fused with the common law it focuses on specific equitable principles and doctrines Expert contributors step back and take a wider view of those doctrines examining how they can best be understood today and how they might develop in the future This will prove invaluable to practitioners and courts at first instance as well as appellate level allowing them to navigate the constantly growing mass of case law Drawing on expertise from across the worlds of academia practice and the bench this seminal collection provides the most illuminating picture available of how equity operates **Where's where?
