Murder and Adultery in Late Imperial China Marinus Johan Meijer, 1991 In this publication the development is traced of two sections of the chapter on Homicide of the penal code of the Qing dynasty 1644-1912 Murder and Homicide of an Adulterer The former deals with premeditated homicide where there is no difference in status social or family relations between murderer and victim while in the latter we find the husband who kills his wife and her paramour when caught in the act In that case the husband was immune from prosecution provided that he committed the act at the time and at the site The first section developed in a clear and intelligent way with in general some logical provisions being added from the beginning till the end of the dynasty The second section however was enriched by 34 additional articles through legislation and judicial practice which with a view to promoting moral purity in society gradually circumvented the original restrictions to the husband's fury Consequently by accentuating the husband's important status and for the sake of maintaining the established hierarchy in society that section changed into a bad and cruel part of the law turning the husband's behaviour from an excusable exception into morally justified conduct and likewise the woman's misbehaviour into a mortal sin This has all been confirmed by the motivation of the legislation and sentences of the cases

Little Stars Sijing Zhang (Scholar on Chinese literature), 2019 This dissertation studies the representation and self presentation of concubines in literati households in late imperial China with a focus on their interrelations with the cultural and intellectual trends during that period such as the rise of the talented women's culture the identity crises of male literati and the transformations of marital modes and gender norms By offering contextualized analyses of a number of concubines biographies anecdotes and tales authored by men of letters I explore how the male construction of the concubine's image fitted into male literati's self identification and communal building projects I also study how the cultural tradition of the scholar concubine romance in previous times came to affect late imperial scholars contemplation of their relationships with their concubines and how literati writings on concubines in the early Qing were received and adapted by scholars of later generations as a means to connect with their literati predecessors and consolidate a sense of community By gender and social status concubines were double marginalized and have commonly been regarded as a group deprived of agency and subjectivity in modern times My study argues against this stereotypical notion Although concubines life experiences and mentalities were largely influenced by the male ideologies and sentiments of their times and their literary vocations often dependent on the support of the male and female elites in their families they managed to exert a degree of autonomy and in some cases choose the lives that they desired My close reading of a small but illustrative selection of poems attributed to concubine authors also shows that literary talent might enable them to transcend class boundaries and receive a considerable amount of affection and respect from the elite members in their families However it could sometimes lead to their husband masters feelings of insecurity and harm their marriage 王德威, 1993

Making Good Citizens Jan Francis Kiely, 2001

Women and Chinese Patriarchy Maria Jaschok, Suzanne Miers, 1994 Around 1930 an eight year old Janet Lim was sold in China by her destitute parents and then imported into Singapore as a mui tsai an unpaid domestic servant Her experiences of servitude her subsequent escape and the impact of those years on the rest of her life are vividly recalled in an interview for this book Janet Lim's story is not uncommon Through the centuries Chinese women and girls have been bought and sold for marriage concubinage domestic service and prostitution in China and among Chinese communities overseas Although the practice was apparently stamped out after World War II it has reappeared on a large scale since the mid 1970s This collection reveals many forms of servitude that Chinese women have endured and the avenues of escape open to some of them The authors are anthropologists historians and sociologists but the book is enriched also by contributions from the participants a social worker a mui tsai and a colonial civil servant The chapters are based on original documentary or oral research and personal experience and throughout the book the voices of the women their owners and

their missionary rescuers can be clearly heard 中国通志 Zhong yang yan jiu yuan jin dai shi yan jiu suo jin dai Zhongguo fu nü shi yan jiu bian ji wei yuan hui,1993 **Concubines in Court** Lisa Tran,2015-06-01 This groundbreaking book analyzes marriage and family reform in twentieth century China Lisa Tran's examination of changes in the perception of concubinage explores the subtle yet very meaningful shifts in the construction of monogamy in contemporary China Equally important is her use of court cases to assess how these shifts affected legal and social practice Tran argues that this dramatic story has often been overlooked leading to the mistaken conclusion that concubinage remained largely unchanged or quietly disappeared in modern China Customarily viewed as a minor wife because her husband was already married a concubine found her legal status in question under a political order that came to be based on the principles of monogamy and equality Yet although the custom of concubinage came under attack in the early twentieth century the image of the concubine stirred public sympathy How did lawmakers attack the practice without jeopardizing the interests of concubines Conversely how did jurists protect the interests of women without appearing to sanction concubinage How law and society negotiated these conflicting interests dramatically altered existing views of monogamy and marriage and restructured gender and family relations As the first in depth study of the meaning and practice of monogamy and concubinage in modern China this book makes an important contribution to our understanding of Chinese society and legal norms In addition by crossing the 1949 divide it compares the Guomindang's designation of concubinage as adultery with the Chinese Communist Party's treatment of it as bigamy and draws out the legal implications for the practice of concubinage as well as for women who were concubines Poised at the intersection of Chinese history women's history and legal history this book makes a unique and significant contribution to the scholarship in all three fields Sex, Law, and Society in Late Imperial China Matthew Harvey Sommer,2000 This study of the regulation of sexuality in the Qing dynasty explores the social context for sexual behavior criminalized by the state showing how regulation shifted away from status to a new regime of gender that mandated a uniform standard of sexual morality and criminal liability for all people regardless of their social status
