Vital,2019-12-11 Este nuevo libro nace de una hipótesis central las crisis los malentendidos y gran parte de los problemas contemporáneos surgen de un déficit en la representación y en la representatividad dos elementos inherentes a la naturaleza humana El autor juega con las distintas acepciones de ambos vocablos con el propósito de demostrar que estas pueden adquirir distintos significados dependiendo del contexto en el que sean empleadas ahora bien dentro de esta obra ser en el ámbito del poder donde alcanzar una mayor relevancia Desde el punto de vista de distintas disciplinas como la pragmática y la filosofía Alberto Vital examina por una parte cómo la representación y la representatividad han sido aprovechadas en el ámbito político como forma estratégica en la construcción de discursos o en la manera en que ciertas figuras políticas buscan representarse Por otro lado también discute la insuficiencia del esquema clásico tripartita del poder político para lograr una representación y una representatividad adecuadas a las condiciones del siglo xxi pues se requerirían cuando menos diez poderes que tomaran en cuenta áreas importantes e influyentes de la realidad La sola enunciación de diez poderes implica su un quíntuple escándalo jurídico semántico filosófico político y sociológico Aun así en último término si se demostrara que no somos capaces de expresar una representación completa del mundo las representatividades políticas y sociales correrían tanto peligro como lo correría una representación completa del mundo si no lográramos darles representación verbal y representatividad a todas las fuerzas las dinámicas y los poderes reales en este siglo xxi Est en riesgo la representabilidad misma como una capacidad definitoria de la especie humana Revista del sur ,2005 *Habilidades blandas para crear juntos LA NUEVA HUMANIDAD* Sara López Juliá,2022-11-22 Desde la Universidad de Harvard hasta el World Economic Forum las habilidades blandas son causante del 85% del éxito o fracaso de un trabajo en equipo Habilidades blandas para la creación juntos la Nueva Humanidad es un manual práctico con enfoque crítico y fondo espiritual dirigido a la juventud de hoy en día En él se tratan temas medioambientales y sociales transversalmente con el objetivo de dar a conocer al lector una realidad que no cuentan en el colegio Sólo así podremos ponerle remedio Es una llamada a la autoresponsabilidad y al empoderamiento personal The New Confessions of an Economic Hit Man John Perkins,2016-02-09 Featuring 15 explosive new chapters this new edition of the New York Times bestseller brings the story of Economic Hit Men up to date and chillingly home to the U S but it also gives us hope and the tools to fight back The previous edition of this now classic book revealed the existence and subversive manipulations of economic hit men John Perkins wrote that they are highly paid professionals who cheat countries around the globe out of trillions of dollars Their tools include fraudulent financial reports

rigged elections payoffs extortion sex and murder In Perkins s case the tool was debt convincing strategically important countries to borrow huge amounts of money for enormous development projects that served the very rich while driving the country deeper into poverty and debt And once indebted these countries could be controlled In this latest edition Perkins provides revealing new details about how he and others did their work But more importantly in an explosive new section he describes how the EHM tools are being used around the world more widely than ever even in the U S itself The cancer has metastasized yet most people still aren t aware of it Fear and debt drive the EHM system We are hammered with messages that terrify us into believing that we must pay any price assume any debt to stop the enemies who we are told lurk at our doorsteps The EHM system employing false economics bribes surveillance deception debt coups assassinations unbridled military power has become the dominant system of economics government and society today It has created what Perkins calls a Death Economy But Perkins offers hope he concludes with dozens of specific concrete suggestions for actions all of us can take to wrest control of our world away from the economic hit men and help give birth to a Life Economy
