

The book cover features a dramatic silhouette illustration. At the top left, a scuba diver is shown in profile, descending into the water. A bright light source, possibly the sun or a powerful flashlight, is positioned behind the diver, creating a strong lens flare effect. A rope extends from the diver down to a figure on the ground. On the right side, a person stands on a dark, rocky shore, holding the rope. The background is a gradient of orange and yellow, suggesting a sunset or sunrise. The overall mood is one of adventure and risk-taking.

Secure Base Leadership: A Positive Theory of Leadership Incorporating Safety, Exploration and Positive Action Duncan David Coombe,2010 This research proposes the notion of Secure Base Leadership through a multi method approach incorporating two separate research studies The research sought to first inductively explore the concept of Secure Base Leadership through a qualitative study and then to deductively test those conceptions in a quantitative study Secure Base Leadership is a direct reference to Ainsworth s and Bowlby s original conceptions of Secure Base as it relates to the dual control systems of attachment and exploration as described in Attachment Theory Secure Base Leadership is an explicitly positive relationship based approach to leadership in that it seeks to understand the behaviors of an exemplar type of leadership as relationship The qualitative results indicate that Secure Base Leadership has eight dimensions However the quantitative analysis indicates three factors underpinning these eight dimensions The three factors correspond theoretically to the Attachment and Exploration control systems of Attachment Theory but also stress the importance of a positive style of problem solving The three factors are referred to as the Safety Exploration and Positive Dealing Factors and taken together represent a positive theoretical and practical approach to leadership The results show that Secure Base Leadership predicts the outcomes of leadership effectiveness psychological safety and follower job satisfaction rated by followers and leadership effectiveness rated by manager of the leader This research further suggests that aspects of Secure Base Leadership resonate with a broader conception of Love especially the notion of Acceptance and Safety This thesis makes a contribution to the literatures of Positive Organizational Scholarship Leadership as Relationship Attachment Theory and Love in Organizations
