facets of aging and planning for the unthinkable any one solution is worth the price of the book You will find out how to chose the correct lawyer to draw up your Will what documents are needed to avoid legal issues later on and what points these documents need to include to protect you and your family This book is the first shot across the bow of the body politic The era of the Politics of Caregiving has begun I introduce a Caregivers Bill of Rights We need national legislation to implement it to protect Caregivers from being driven into poverty because they defend the dignity and well being of a family member
