*language* John Gibson, 1888 *Transfer Pricing Developments around the world* 2023 Raffaele Petruzzi, Michael Lang, 2022-01-13 Information Law Series 48 About this book Imposing Data Sharing among Private Actors is a vital book shedding light on the nature of certain economic and societal balancing exercises required for any compulsory business to business B2B data sharing initiatives because data sharing involves both benefits and potential costs While the economic value originating from data sharing seems evident identifying the legal framework to be applied to it is a challenge This is due to the multiple claims and rights aimed at controlling accessing or benefiting from data processing What's in this book Whether these initiatives pursue economic societal or empowerment objectives their potential benefits must be balanced with the following three considerations that are extensively investigated in the book the economic interests of the data holder personal data protection considerations and long term and collective costs in terms of individual autonomy The analysis elucidates how these aspects have been factored into existing compulsory B2B data sharing initiatives so far particularly in Europe and on how they may be used as a source of inspiration in future initiatives Insightful suggestions on the implementation of these balancing exercises conclude the volume How this will help you Based on law and literature in competition personal data protection and intellectual property the book greatly highlights the necessary balances underlying compulsory B2B data sharing and raises awareness about the crucial need to take the risks involved into consideration It will

be highly appreciated by policymakers academics and private actors interested in issues linked to competition law in the digital environment regulation of platforms data governance or the interaction between competition law and personal data protection law
