Learning Target/Objective(s): (What will students know and be able to do as a result of this lesson?) This is the outcome of your lesson.

Wording of these is dependant on the expectations of your leadership team and how you have communicated this to teachers. Objectives will be written so that students understand them. Make sure students will be able to show evidence of mastery of the objective. This may mean having some sub-objectives aligned to the major objective.

Relevance/Rationale: (Why are the outcomes of this lesson important in the real world? Why are these outcomes essential for future learning?)

Why do students need to learn this skill or concepts in order to be college or career ready? Why are we teaching this?

Formative Assessment Criteria for Success: Link using "References & Objectives → Assessment" (How will you and your students know if they have successfully mastered the outcome? What specific criteria will be met in a successful product/process? What does success on this lesson's outcomes look like?)

Formative assessment is an active and intentional learning process that partners the teacher and the students to continuously and systematically gather evidence of learning with the goal of improving student achievement.
