hmm.... another text file... make sure that you keep this one for your collection!! there is no other text file that is more complete or up-to date that explains cellular phone phreaking like this one for 1992!!!

since this is going to be a complete manual it has been broken-up into 2 parts so this is manual 1. i'm hoping that there will be some info. on cellular phreaking published in phrack that may be able to help you and me with our endeavors but i'm waiting.

another thing that i just found out is that the hack/phreak community is in need for a bbs that doesn't give bullshit info (most do!) and that's cause our world has been infiltrated with narcs and telco/bell agents that try to spread as much misinformation as possible!! but there are a few bbs's that keep the faith and they will be listed at the end of this text.
