**Creativity in Primary Education** Anthony Wilson, 2014-12-04 An alien spaceship crash landed in my playground today. For one primary school in England this was not an ordinary day. It was a fabulous day of inspiration, writing, drawing, discovering and learning for the pupils, the staff and the parents. But the best thing of all? The only truly out of the ordinary thing was the alien spaceship! So how do you make creativity a more everyday part of primary teaching? Teachers and trainees agree that creativity is a fabulous thing. But to get creative approaches into everyday teaching you need to tackle the question what is creativity? This book explores this question in an accessible and practical way. It helps trainees to do more than know it when they see it by helping them to understand the separate and very diverse elements of creativity. The third edition of this popular text retains key material but it has been updated and revised to include two new chapters on the creative curriculum along with links throughout to the Standards and the new National Curriculum. This book will help you enhance your teaching so you and the children in your class can be fellow explorers, adventurous discoverers and spontaneous investigators.

Contemporary Research and Analysis on the Children of Prisoners Liz Gordon, 2018-06-11 In March 2017 researchers, advocates and NGOs from twelve countries came together in Rotorua, New Zealand for the first conference of the International Coalition for the children of incarcerated parents. The Coalition had been formed the previous year to recognise that similar issues faced the children of prisoners all over the world. From the first arrest until release from prison the system is stacked against the child. Justice systems are all about punishing individuals and are as one conference speaker noted child blind. The papers in this collection cover many of the themes in the wider literature on the children of prisoners. Advocacy themes include moving towards child friendly prison systems, using mass incarceration to influence wider social change, the effects of pre trial detention on families, the particular issues in Hawaii and how arrest and detention procedures harm children. A set of papers reflect contemporary research and analysis on the children of prisoners. One paper sets out 12 guiding principles for working with children and families of the incarcerated. Others look at how babies and young children react to parental imprisonment as well as children who are resilient in the face of it. Two papers consider women, one on mothers involuntarily committed to psychiatric hospital and the other examining the difficulties in maintaining family ties.

when a mother is sent to prison Another contribution looks at an initiative between university and community set up to expand knowledge and inspire change for the children of prisoners One paper examines the difficult issue of supporting families where a parent has been convicted of a sexual offence Also discussed in this volume are the Tyro programme that works to break the cycles of self destruction for the children of prisoners and case studies of prison staff making a difference in child and family visiting     **Canadiana** ,1984     *2011 CFSA EXAMETRIX Pocket Notes for the Financial Services Auditor Exam* ExAMETRIX,2011-07-11 The Certified Financial Services Auditor CFSA is a specialty certification which measures an individual's knowledge of and proficiency in audit principles and practices within the banking insurance and securities financial services industries The one part CFSA exam includes 125 multiple choice questions covering 1 Financial Services Auditing2 Auditing Financial Services Products3 Auditing Financial Services Processes4 The Regulatory EnvironmentThe CFSA exam is comprehensive One has to go through a lot of readings for learning the various exam topics However most readings are not exam focused as they are never intended for exam prep use right from the beginning This Exametrix Pocket Notes condenses most necessary facts found in the exam into an easy to carry pocket guide A quick portable study tool designed to be quick convenient and less overwhelming Also a great tool to use for last minute cramming
