about and strategies for doing word problems Part Three turns to a wider discussion of theoretical issues a further analysis of the features of the educational system considered responsible for outcomes detrimental to many students understanding and conception of mathematics and suggestions for rethinking the role of word problems within the curriculum **Cultivating**

Mathematical Hearts Maria del Rosario Zavala, Julia Maria Aguirre, 2024-05-17 This book is for everyone who believes there must be a better stronger way to teach mathematics that fosters student joy and curiosity rather than fear and disconnection a way that demonstrates to children that mathematics is both a mirror and a lens it reflects who you are and who you are becoming and it helps you analyze the world around you A way to see mathematics as a tool to make positive change in our communities and build foundational knowledge and skills to solve novel and complex problems in our world and its future This book is organized into two main parts Part 1 describes the fundamental principles ideas and vision i e foundations of culturally responsive mathematics teaching It also introduces a multidimensional framework for culturally responsive mathematics teaching Part 2 features a set of chapters that illustrate culturally responsive mathematics teaching in action
