**To Serve the President** Bradley H. Patterson,2009-12-23 Nobody knows more about the duties the difficulties and the strategies of staffing and working in the White House than Brad Patterson In To Serve the President Patterson combines insider access decades of Washington experience and an inimitable style to open a window onto closely guarded Oval Office turf The fascinating and entertaining result is the most complete look ever at the White House and the people that make it work Patterson describes what he considers to be the whole White House staff a larger and more inclusive picture than the one painted by most analysts In addition to nearly one hundred policy offices he draws the curtain back from less visible components such as the Executive Residence staff Air Force One and Marine One the First Lady s staff Camp David and many others 135 separate offices in all pulling together under often stressful and intense conditions This authoritative and readable account lays out the organizational structure of the full White House and fills it out the outline with details both large and small Who are these people What exactly do they do And what role do they play in running the nation Another exciting feature of To Serve the President is Patterson s revelation of the total size and total cost of the contemporary White House information that simply is not available anywhere else This is not a kiss and tell tale or an incendiary expos Brad Patterson is an accomplished public administrator with an intimate knowledge of how the White House really works and he brings to this book a refreshingly positive view of government and public service not currently in vogue The U S government is not a monolith or a machine or a shadowy cabal above all it is people human beings doing the best they can under challenging conditions to produce a better life for their fellow citizens While there are bad apples in every bunch the vast majority
