HOW TO USE THIS MANUAL

The first part of this shop manual contains all information and procedures common to the CB/CM-400's. After section 19, part two begins and it contains information and procedures for the Honda-matic models.

A '78% Emissions Addendum follows the second part and it applies to all CB and CM400 models manufactured after December 31, 1977 (USA only).

Sections 1 through 3 apply to the whole motorcycle, while sections 4 through 17 describe parts of the motorcycle, grouped according to location.

Find the section you want on this page, then turn to the table of contents on page 1 of that section.

Most sections start with an assembly or system illustration and all the specifications, torque values, working practices, tools and materials required for the section. The subsequent pages give detailed procedures.

If you are not familiar with this motorcycle, read TECHNICAL FEATURES, section 18.

If you don't know the source of the trouble, see section 19, TROUBLESHOOTING.

Refer to the addendums at the back of the shop manual for 1978% and subsequent years service information.
