Conceptions Of Chinese Democracy Reading Sun Yat Sen Chiang Kai Shek And Chiang Ching Kuo:

Conceptions of Chinese Democracy David J. Lorenzo, 2013 Close attention to the writings of the founding fathers of the Republic of China on Taiwan shows that democracy is indeed compatible with Chinese culture. *Conceptions of Chinese Democracy* provides a coherent and critical introduction to the democratic thought of three fathers of modern Taiwan: Sun Yat-sen, Chiang Kai-shek, and Chiang Ching-kuo in a way that is accessible and grounded in broader traditions of political theory. David J. Lorenzo's comparative study allows the reader to understand the leaders' democratic conceptions and highlights important contradictions, strengths, and weaknesses that are central to any discussion of Chinese culture and democratic theory. Lorenzo further considers the influence of their writings on political theorists, democracy advocates, and activists on mainland China. Students of political science and theory, democratization, and Chinese culture and history will benefit from the book's substantive discussions of democracy, and scholars and specialists will appreciate the larger arguments about the influence of these ideas and their transmission through time.

Conceptions of Chinese Democracy David J. Lorenzo, 2013-04-05 An accessible and critical introduction to the political writings of three seminal figures in modern Chinese democratic thought. Author and political scholar David J. Lorenzo examines the democratic writings of Sun Yat-sen, Chiang Kai-shek, and Chiang Ching-kuo, providing a coherent summary that situates their ideas within the broader traditions of political theory. His comparative study allows the reader to understand each leader's perspective while highlighting important contradictions, strengths, and weaknesses. Lorenzo further considers the influence of their writings on political theorists, democracy advocates, and activists on mainland China. Students of political science and theory, democratization, and Chinese culture and history will benefit from the book's substantive discussions of democracy. Buddhist Responses to Christianity in Postwar Taiwan Scott Pacey, 2025-10-01 After the Communist victory in China's civil war, Taiwan, then governed by the KMT or Nationalist Party, became a focal point for both Buddhist and Christian activity in the Chinese world. Focusing on some of the most influential monastics of the time, this study considers Buddhist responses to Christianity during its subsequent period of growth on the island. Drawing on Buddhist and Christian publications, it shows that interfaith competition and political context are important in shaping religious identity and driving the religious engagement with modernity. *Buddhist Responses to Christianity in Postwar Taiwan* will be of interest to historians of Buddhism, Chinese religion, and Taiwanese society, and to those with an interest in interfaith dialogue more generally.

Chinese Ideology Shiping Hua, 2021-08-16 This book traces ideological trends in China through a range of historical and comparative perspectives spanning the ancient belief systems of Confucianism, Legalism, and Taoism to political ideologies of the present day. Chapters in this edited volume are divided into four parts: traditional Chinese ideology, ideology of the Republic, Maoism as an ideology, and post-Mao ideology, zoning in on specific historical periods from

the Qing and Republic periods to the reform era as well as the period after the founding of the PRC through which Mao Zedong's political thought is notably discussed from the perspective of epistemology and the global impact of Maoism. Key topics include Sun Yat-sen as the Father of the Republic, Li Dazhao the early Marxist theoretician, Chiang Kai-shek and his nationalist Fascism, Liang Qichao's emotional appeals through liberal political discourse, Jiang Zemin's theory of Three Represents, de-emphasising the Marxist concept of class, Hu Jintao's theory of Harmonious Society and Xi Jinping's political thought. Contributions from world leading scholars take both comparative and critical approaches examining not only how studies of ideology are relevant but how Chinese ideologies have retained their own characteristics distinct to the West. As the first comprehensive study of this subject in the English language, *Chinese Ideology* will appeal to students and scholars of philosophy, political science, history and Asian studies more broadly.

Chinese International Students and Citizenship

Xiudi Zhang, 2020-02-22. This book investigates how Chinese international students reconfigure their sense of themselves as citizens when they reflect on what Chinese citizenship means in the context of New Zealand. Adopting a case study approach, it develops a theory relating to the thoughts of Chinese international students; the theory is based on the communities, schools, family and state relationships of both their past and their contemporary daily experiences. It finds that the struggles of Chinese young people lie in between being individuals and submitting to the general will of the family, state and *guanxi*, a Chinese concept of interpersonal relationships. The book argues that the Western literature on citizenship is not sufficient in helping us understand how it is viewed in the Chinese contexts. It offers readers a picture of what citizenship means for Chinese young people and the role of citizenship education in Modern Chinese society and demonstrates that the Chinese young people studied re-educated themselves on citizenship in a way that is unstable and emotional. This book makes important contributions to the literature on Chinese students who are studying abroad by going beyond the well-researched topics of academic and social experience to explore deeper understandings of each individual student's relationship to family and the state in China and how the study abroad experience has developed new understandings of individual's relationships to China and new possibilities for contributing to Chinese society on return.

Democracy and Socialism in Republican China Roger B. Jeans, 1997 This groundbreaking book is the first full length English language study to explore the struggles for constitutional democracy and democratic socialism of Zhang Junmai. Carsun Chang 1887-1969 a major political and intellectual figure in Republican China. Mr. Chiang Kai-shek's Understanding and Implementation of Dr. Sun Yat-sen's Revolutionary Ideology and Programs Hsiao-yi Chin, 1981 *In Search of Chinese Democracy* Edmund S. K. Fung, 2000-09-04 Edmund Fung examines an important phase of development in China's long quest for democracy. The momentum for democracy he contends grew strongest between 1929 and 1949 through civil opposition to the one party rule of the Guomindang. The Nationalist era contained the germs of a reformist liberal order, the legacy of which can be seen in the pro democracy movement of the post Mao period. This book fills an important gap in the historical literature on Chinese intellectuals between May Fourth radicalism and the Chinese Communists' accession to power.
