---

**Self-concepts are:**

- An individual's mental representation of themselves
- Constructed from experiences and reflections from those experiences
- People get feedback about their personal attributes, characteristics, and preferences
- People translate their multitude of specific experiences into a general representation of the self
- A collection of domain specific schemas
- The self-schemas that are involved in the definition of the self-concept are those that are most important to the person

**Self-schemas are:**

- Cognitive generalizations about the self that are domain specific and learned from past experiences

## **Activity**

*With your group, please begin by defining your self concept by recounting the experiences and feedback in your life that led you to define yourself as you did in the first activity.*

*Please also think of domain specific generalizations about yourself and the experiences and feedback you received that led you to develop these self schemas*

## Concepts Of The Self:

**Concepts of the Self** Anthony Elliott,2014 More than ten years on from its original publication Concepts of the Self still mesmerizes with its insight comprehensiveness and critique of debates over the self in the social sciences and humanities Anthony Elliott has written a new preface to this third edition to address some of the most recent developments in the field and offers a powerful challenge to what he describes as the emergence of anti theories of the self The first two editions have proven exceptionally popular among students and teachers worldwide Anthony Elliott provides a scintillating introduction to the major accounts of the self from symbolic interactionism and psychoanalysis to post feminism and postmodernism This new edition has been extensively revised and updated to take account of more recent theoretical developments and a new chapter has been added on individualization which focuses on how the self becomes an agent of do it yourself

autobiographical reconstruction in an age of intensive globalization Concepts of the Self remains the most lively lucid and compelling introduction to contemporary controversies over the self and self identity in the social sciences and humanities Written by an author of international reputation it connects debates about the self directly to identity politics the sociology of personal relationships and intimacy and the politics of sexuality and will continue to be an invaluable introductory text for students in of social and political theory sociology social psychology cultural studies and gender studies *The Self-concept: Theory and research on selected topics* Ruth C. Wylie,1974-01-01 Theory and Research on Selected topics In this book we are provided with careful critical and lucid discussions of such topics as the relationship between race sex socioeconomic status age and self concept

[The Conceptual Self in Context](#) Ulric Neisser,David A. Jopling,1997-08-13 This book explores the self concept its cultural psychopathological and philosophical implications [Self-Concept](#) John Hattie,2014-03-05 The aim of this book is to discuss the notions of self concept self esteem and related terms from an educational and psychological perspective Specifically this book is concerned with developing a model of self concept and corollaries to this model that assesses the dimensionality of self concept reviews tests of self concept discusses the relationship between self concept and other variables particularly achievement describes the development of self concept and evaluates programs to enhance self concept Throughout this volume emphasis is placed on ordering the many studies using recent methodological advances such as meta analysis and the analysis of covariance structures After detailing a conceptual model of self concept the book offers various experimental and statistical discussions of the model Unlike many other models the claim is not that this model is the correct one but that it may serve as a useful coathanger until a better one is devised

**The Self in Social Perspective** Jerry M. Suls,1993 First Published in 1993 Routledge is an imprint of Taylor Francis an informa company [The Self](#) Thomas M. Brinthaupt,Richard P. Lipka,1992-01-01 What are the characteristics and dimensions of the self Is there a best way to measure the self How does the researcher s definition of the self affect the choice of research measure and methods These are the questions addressed by this book Unlike previous books on the self this one provides a systematic analysis of

the theoretical and methodological issues involved It offers a description of several alternative methods for studying the self and discussions of the advantages and disadvantages of these different approaches Emphasized here are the phenomenological and experiential nature of the self its multidimensionality and hierarchical structure and the relationship between defining and measuring the self Among the methodological issues addressed are the impact of significant others on the self the factors that affect the process of reporting about the self between group comparison of self structure the structure of the self in relationship to others and the effects of differing cultural contexts
