### **Self-Help Groups for Parents of Children with Intractable**

**Diseases** Tomofumi Oka,2003-09 The purpose of this dissertation is to examine the organisational problems and in particular the leadership problems of self help groups in Japan for parents whose children have intractable diseases Since 1993 I have been involved with these parent groups and have conducted three sorts of qualitative interview thirteen informal conversational interviews four focus group interviews and fourteen guided interviews involving the members of twenty one parent groups Part of the research was carried out as participatory action research in which a research team was formed and authorised by the parent groups My findings have shown that the groups most serious problems lay not outside their groups but within with the shortage of suitable leaders who volunteered in the activities Three different sorts of account were given concerning the leadership shortage They included justification accusation and exposure the participants claimed that taking care of ill children caused the leadership shortage selfish members created it or the determination of older leaders to remain at the helm prevented new members from becoming leaders Cognitive maps have been drawn of these situations I have explained the theories behind the free rider and social loafing problems and the leadership traps confronting the parent groups and have applied attribution theory to the results I have discussed the practicality of consultation for group leaders and argued that organisational socialisation should be activated in the parent groups while propounding the island within a lake model of parent groups Methodologically I have discussed social research within Japanese culture and the ethical issues pertain to participatory action research

### **Bold Faith Ben Pugh,2017-03-09**

Bill Johnson Joyce Meyer Heidi Baker The fame of these names is evidence enough that though the controversies are less intense the Charismatic Movement is alive and well today It continues to attract thousands of adherents who find its vision of a supernatural lifestyle uniquely compelling Now for the first time all that is most theologically innovative about the movement is synthesized into five distinct and original ideas These five brand new theologies have been created not by theologians but by practitioners who believed their concepts were inspired by the Spirit Inner Healing Shepherding Word of Faith Spiritual Warfare and Signs and Wonders Plenty of studies have been written by Pentecostal scholars about Pentecostal theology but these tend to group the very distinct approaches of Charismatics together with Classical Pentecostals Bold Faith aims to analyze and evaluate the ways in which practitioners within independent Charismatic networks especially in their Anglo American expressions have responded to the

challenges of secular modernity     *Communication Research* Rebecca B. Rubin, Alan M. Rubin, Linda J. Piele, 2000 This text presents strategies for selecting, refining and researching communication topics, placing special emphasis on using library resources to search for literature. It demystifies the research process by teaching students library skills, scholarly writing and acquainting them with the latest research technology tools     **The Elements of Police Hostage and Crisis Negotiations**

James L. Greenstone, 2013-05-13 Run a safe and successful crisis negotiation from start to finish. *The Elements of Police Hostage and Crisis Negotiations* Critical Incidents and How to Respond to Them reduces the negotiation procedures for hostage barricaded and suicide incidents to their basic elements, providing quick and easy access to the information you need from the initial call out to the final debriefing. Based on field tested principles proven to work, the book also includes newly developed and highly specialized techniques for more experienced negotiators. Author James L. Greenstone provides a user friendly step by step guide to the intervention and negotiation process that will help you get the job done right. Designed for day to day use on the scene, *The Elements of Police Hostage and Crisis Negotiations* is a practical handbook for experienced professionals and novices that can also be used as a supplementary textbook for criminal justice, crisis intervention and psychology coursework. Each chapter contains useful checklists, procedural notes, tables, strategy worksheets and forms, and the book includes special indices for quick reference in addition to a traditional index. Dr. Greenstone, a police mental health consultant and psychologist who served as Director of the Psychological Services Unit of the Fort Worth Police Department in Texas, uses a simple and direct format that emphasizes procedures, action and results, leaving theoretical discussions for another time and place. The book examines the negotiation process from start to finish, including preincident preparations, first response responsibilities, responding to the call out, arriving at the scene, preparing to negotiate, making contact, preparing for the surrender, post incident tasks, preparing equipment and more. Topics covered in *The Elements of Police Hostage and Crisis Negotiations* include legal considerations, telephone surveillance guidelines, the Stockholm Syndrome, working with SWAT and Tactical Emergency Medical Support, dealing with the media, recognizing red flags, the issues of suicide, debriefing the hostage team, the 150 laws of hostage and crisis negotiation, and the 10 most serious errors a negotiator can make. *The Elements of Police Hostage and Crisis Negotiations* Critical Incidents and How to Respond to Them is a practical guide that is equally effective in the field, in training and in the office.     **Book Review Digest**, 1915
