The Jewish South Shari Rabin, 2025-04 A panoramic history of the Jewish American South from European colonization to today In 1669 the Carolina colony issued the Fundamental Constitutions of Carolina which offered freedom of worship to Jews heathens and other dissenters ushering in an era that would see Jews settle in cities and towns throughout what would become the Confederate States The *Jewish South* tells their stories and those of their descendants and coreligionists who followed providing the first narrative history of southern Jews Drawing on a wealth of original archival findings spanning three centuries Shari Rabin sheds new light on the complicated decisions that southern Jews made as individuals families and communities to fit into a society built on Native land and enslaved labor and to maintain forms of Jewish difference often through religious innovation and adaptation She paints a richly textured and sometimes troubling portrait of the period exploring how southern Jews have been targets of antisemitism and violence but also complicit in racial injustice Rabin considers Jewish immigration and institution building participation in the Civil War the 1915 lynching of Leo Frank and Jewish support for and resistance to the modern fight for Black civil rights She examines shifting understandings of Jewishness highlighting both the reality of religious diversity and the ongoing role of Christianity in defining the region Recovering a neglected facet of the American experience The *Jewish South* enables readers to see the South through the eyes of people with a distinctive religious heritage and a southern history older than the United States itself

Igbo Petitions to U S Missionary Nurses 1965 *Between King Cotton and Queen Victoria* Beau Cleland,2025-12-01

Between King Cotton and Queen Victoria recenters our understanding of the Civil War by framing it as a hemispheric affair deeply influenced by the actions of a network of private parties and minor officials in the Confederacy and British territory in and around North America John Wilkes Booth likely would not have been in a position to assassinate Abraham Lincoln for example without the logistical support and assistance of the pro Confederate network in Canada That network to which he was personally introduced in Montreal in the fall of 1864 was hosted and facilitated by willing colonials across the hemisphere Many of its Confederate members arrived in British North America via a long established transportation and communications network built around British colonies especially Bermuda and the Bahamas whose primary purpose was running the blockade It is difficult to overstate how essential blockade running was for the rebellion s survival and it would have been impossible without the aid of sympathetic colonials The operations of this informal semiprivate network were of enormous consequence for the course of the war and its aftermath and our understanding of the Civil War is incomplete without a deeper reckoning with the power and potential for chaos of these private networks imbued with the power of a state
