slightly different from APICS's CSCP in that it is targeting those who wish to have a broad understanding of all components of the profession. It focuses primarily on strategic supply management less on fundamental or tactical level knowledge. CSCP places heavier focus on integrated supply chain while CPSM does not. To succeed in the CPSM exams you need to get yourself truly familiar with the most important information by going through sufficiently focused revision. This is where we fill the gap you may think of our product as the unofficial supplement to the regular training class or you may view it as a standalone module with a focus on building up your exam readiness. There are three exams: Exam 1 covers the Foundation of Supply Management, Exam 2 covers Supply Management Performance, Exam 3 deals with Leadership. This book covers ALL these exams. This book covers ALL parts of the exam. You would normally complete all parts on the same day. Time wise you have approximately one minute per question, yes it is tight. Exam 1 and 3 tend to have more situational questions. **The Evolution of Electronic Procurement** Tobias Schoenherr, 2018-08-06 This book responds to the increasing speed with which the domain of electronic procurement has been evolving as well to the significant advances predicted to take place in the near future. Covering the fundamentals of electronic procurement as well as advanced applications, the main focus is on the critical importance of information technology for modern supply management professionals. Tracing the evolution of electronic procurement over the last 20 years, the book illustrates how the concept has evolved from a novel idea into a standard approach that cannot be neglected, fundamentally transforming business as usual. The transformation is highlighted by the evolution of online reverse auctions as well as the ensuing expansion of technology to virtually all aspects of strategic sourcing in the form of integrated electronic sourcing suites. Several advances and new applications of electronic procurement are presented with an emphasis on how social media can be leveraged for supply management and its associated significant potential.
