Intruders Paul Seiple,Tracy Sharp,2019-08-30 If the dead don t get you the aliens will Where were you when the world ended It s a question Zoe has wanted to ask someone anyone since escaping death But she doesn t have time to sit around and wait for an answer Moans from the dead remind her that death isn t far behind She has to keep moving that is until nightfall when the aliens rise from tunnels below Why are they here Why are they destroying Earth Why are the dead not

dead More questions Zoe's only hope is to find Griffin Murphy a paleontologist who may have the answers If he survived the invasion Murphy is hundreds of miles away Zoe will have to fight the dead and dodge the aliens to get to the one man she's put her faith in to save what's left of the world she once knew If she dies she goes down swinging If she lives maybe she will find someone to tell her where they were when the world ended *The Killing Star* Charles Pellegrino, George Zebrowski, 2024-01-23

A near future thriller of a devastating alien invasion from the paleontologist who inspired Jurassic Park and the award winning science fiction author There were always those who disagreed with broadcasting signals into the deepest reaches of outer space because our mere existence could be taken as a threat They were right to be concerned In the spring of 2076 just days short of America's tricentennial celebrations every inhabited surface in the solar system gets wiped out by a catastrophic storm of relativistic bombs flaming swords that pierced the sky The only two survivors left on Earth exist in a submersible that had been exploring the Titanic's final resting place on the bottom of the North Atlantic In space only the settlers in small asteroid based colonies have gone unnoticed by the aliens for now But any sign of life any call for help might bring the Intruders straight to them These far flung survivors are now on their own stalked by a ruthless faceless enemy straight out of the nightmares of humanity's greatest minds those lone voices whose warnings went ignored A novel of such conceptual ferocity and scientific plausibility that it amounts to a reinvention of that old Wellsian staple alien invasion

The War of the Worlds H. G. Wells, 2013-05-17. The War of the Worlds is a science fiction novel by H G Wells. It is the first person narrative of an unnamed protagonist's adventures in London and the countryside southwest of London as Earth is invaded by Martians. The War of the Worlds has two parts Book One The Coming of the Martians and Book Two The Earth under the Martians. The narrator, a philosophically inclined author, struggles to return to his wife while seeing the Martians lay waste to southern England. The plot has been related to invasion literature of the time. The novel has been variously interpreted as a commentary on evolutionary theory, British imperialism and generally Victorian fears and prejudices. At the time of publication it was classified as a scientific romance like his earlier novel The Time Machine. The War of the Worlds has been both popular and influential, spawning half a dozen feature films, radio dramas, various comic book adaptations, a television series and sequels or parallel stories by other authors.
