professional and managerial employees is an important issue as most organizations are not prepared to tailor their training methods to the needs and preferences of these employees due to negative stereotypes. Managing a rapidly aging workforce and sustaining economic dynamism calls for systematic research to prevent age discrimination due to an incomplete knowledge of older workers and politically challenging policy choices that require strong political commitments, robust management leadership and social consensus.

International Perspectives and Strategies for Managing an Aging Workforce examines the differences in stereotypes of older employees compared to younger employees in companies, analyzes the impact of the aging workforce on retention, productivity and well being, and investigates organizational systems, processes and practices for managing older workers. Covering a range of topics such as retention and retirement, this reference work is ideal for researchers, academicians, practitioners, business owners, managers, human resource workers, instructors and students.

Career Counseling Vernon G. Zunker, 2002. Handbook of STEM Faculty Development Sandra M. Linder, Cindy M. Lee, Shannon K. Stefl, Karen A. High, 2022-11-11. This handbook addresses the multifaceted roles of STEM faculty, focusing on professional development to support their teaching, research and leadership responsibilities. It explores faculty development planning techniques and outcomes, highlighting barriers, effective models and the impact on higher education practices.

Assessment in Counseling Albert Bullard Hood, Richard W. Johnson, 2007. This best selling handbook examines the basic principles of psychological assessment and the tests most widely used by counselors. Hood and Johnson explain how to choose and administer testing instruments, conduct assessments and interpret and communicate test results. More than 100 instruments used with diverse populations in schools, university counseling centers, government mental health clinics and private practice to assess intelligence, academic aptitude, career development, personal values, interpersonal relationships, mental health and counseling outcomes are described. This edition contains information on the latest editions of existing instruments, including revised versions of the Stanford Binet test, the Strong Interest Inventory, the Work Values Inventory, the California Psychological Inventory and the SAT, as well as changes in school achievement tests required by the No Child Left Behind Act. New tests such as the Kuder Skills Assessment, Expanded Skills Confidence Inventory, Career Futures Inventory, the Schwartz Value Survey and the Restructured Clinical Scales of the MMPI-2 are also highlighted. Clear and concise, *Assessment in Counseling* provides an excellent framework for assessment courses and is a handy reference for practitioners.
