## **Caro's Advanced Strategies For Draw Poker:**

**Caro's Advanced Strategies (for Draw Poker)** Mike Caro, 1981      Winning Concepts in Draw and Lowball Mason Malmuth, 1993 The ultimate book for anyone trying to master these games. This book is for both the typical player and the professional. It is divided into sections designed to help all players grow and improve their games. Also it teaches you how to think like a top player which is absolutely essential to winning play. Topics include poker reasons, basic mistakes, basic strategy, technical plays, advanced strategy, jackpot games, killing the pot, psychology, game theory, high draw mathematics, and advanced plays. Advice also is provided on bluffing, errors, lowball, value betting, profitable losing bets, playing patterns, going all in, acting the opposite, running bad, raising with weak hands, getting maximum value, playing short handed, and image plays.

**Gambling Theory and Other Topics** Mason Malmuth, 1999 Absolutely must reading for all serious gamblers. Most people who gamble are basically attracted by the action and the excitement that this form of entertainment offers. But a small number of people are quite successful at it. How is this so? What helps these few to make decisions that devastate their opponents? And what do you need to do to become successful at this extremely challenging occupation? This text attempts to answer these questions. You will be introduced to the dynamic concept of non self weighting strategies and shown how these strategies apply not only at the very exciting gaming tables but in real life as well. In addition risk and fluctuations are discussed in terms of the standard deviation and their relationship to each other and to your bankroll. Some of the other topics addressed are bankroll requirements, win rate, accuracy, free bets, which blackjack count is best, lottery fallacies, dangerous ideas, poker tournament strategies including when it is correct to rebuy, settling up in tournaments, Pai Gow poker, super pan nine, the world's greatest gamblers, and building pyramids.      *Daniel Negreanu's Power Hold'em Strategy* Daniel Negreanu, This power packed book on beating no limit hold em is one of the three most influential poker books ever written. Negreanu headlines a collection of young great players Todd Brunson, David Williams, Erick Lindgren, Evelyn Ng, and Paul Wasicka who share their insider professional moves and winning secrets. You'll learn about short handed and heads up play, high limit cash games, a powerful beginners strategy to neutralize professional players, how to mix up your play, bluff and win big pots. The centerpiece however is Negreanu's powerful and revolutionary small ball strategy. You'll learn how to play hold em with cards you never would have played before and with fantastic results. The preflop, flop, turn, and river will never look the same again.
