Inside of a Dog Alexandra Horowitz, 2010-09-28 The bestselling book that asks what dogs know and how they think now in paperback The answers will surprise and delight you as Alexandra Horowitz a cognitive scientist explains how dogs perceive their daily worlds each other and that other quirky animal the human Horowitz introduces the reader to dogs perceptual and cognitive abilities and then draws a picture of what it might be like to be a dog What's it like to be able to smell not just every bit of open food in the house but also to smell sadness in humans or even the passage of time How does a tiny dog manage to play successfully with a Great Dane What is it like to hear the bodily vibrations of insects or the hum of a fluorescent light Why must a person on a bicycle be chased What's it like to use your mouth as a hand In short what is it like for a dog to experience life from two feet off the ground amidst the smells of the sidewalk gazing at our ankles or knees Inside of a Dog

explains these things and much more The answers can be surprising once we set aside our natural inclination to anthropomorphize dogs Inside of a Dog also contains up to the minute research on dogs detection of disease the secrets of their tails and their skill at reading our attention that Horowitz puts into useful context Although not a formal training guide Inside of a Dog has practical application for dog lovers interested in understanding why their dogs do what they do With a light touch and the weight of science behind her Alexandra Horowitz examines the animal we think we know best but may actually understand the least This book is as close as you can get to knowing about dogs without being a dog yourself The Encyclopedia of Applied Animal Behaviour and Welfare D. S. Mills, Jeremy N. Marchant-Forde, 2010 The practical focus of this authoritative comprehensive encyclopedia promotes the understanding and improvement of animals behaviour without compromising welfare It will be an essential resource for practising veterinarians researchers and students in zoology and ethology and for all those working with and interested in animals and their welfare Book Jacket *Equitation Science* Paul McGreevy, Andrew McLean, 2010-09-07 Written by two internationally recognised experts Equitation Science is the first book to draw together the principles of this emerging field into a much needed coherent source of information The goal of equitation science is to enhance our understanding of how horses think and learn and to use their natural behaviour to train ride or compete with them in as fair a manner as possible The welfare consequences of training and competing horses under different protocols are explored Drawing on traditional and emergent techniques this book incorporates learning theory into an ethical equine training system suitable for all levels It also focuses on evidence based approaches that improve rider safety The Welfare of Performing Animals David A. H. Wilson, 2015-02-20 This timely book describes and analyses a neglected area of the history of concern for animal welfare discussing the ends and means of the capture transport housing and training of performing animals as well as the role of pressure groups politics the press and vested interests It examines primary source material of considerable interdisciplinary interest and addresses the influence of scientific and veterinary opinion and the effectiveness of proposals for supervisory legislation noting the current international status and characteristics of present day practice within the commercial sector Animal performance has a long history and at the beginning of the twentieth century this aspect of popular entertainment became the subject not just of a major public controversy but also of prolonged British parliamentary attention to animal welfare Following an assessment of the use of trained animals in the more distant historical past the book charts the emergence of criticism and analyses the arguments and evidence used by the opponents and proponents in Britain from the early twentieth century to the present noting comparable events in the United States and elsewhere *Choice*, 2008 **Behavior Principles in Everyday Life** John D. Baldwin, Janice I. Baldwin, 2001 For undergraduate psychology courses in Learning Learning Theory Behavior Modification Behavioral Psychology and Social Learning Theory This text provides a comprehensive introduction to and overview of the major psychological principles of behavior operant conditioning Pavlovian conditioning social learning theory and cognitive

behaviorism It closely links these basic abstract principles to relevant concrete examples from everyday life showing students how each behavior principle operates in easily understood settings and how to apply them in complex natural situations
