**My Body** Karen Bryant-Mole,2014    **Let's Visit the Farm! A Children's eBook with Pictures of Farm Animals and Baby Animals (A Child's 0-5 Age Group Reading Picture Book Series)** William A. Campbell Jr, Let's Visit the Farm A Children's eBook with Pictures of Farm Animals and Baby Animals has been designed to be the first step in helping your child build their vocabulary. Included in each book is a number of high quality images of very cute farm animals and baby animals that your child will enjoy looking and reading about for months. In this book your child will be learning about which animals live on the farm and what job or role they have on the farm. My books use simple one or two sentence facts which is accompanied by a relevant picture of the animal. This makes the perfect first word book to share because young children will love reading along while being encouraged to start using their words to read along. This is an excellent and fun educational resource to start your child off with. No more having to buy complex and ugly picture books. Your child will also enjoy getting to use the family tablet for fun time which is also learning time. Let's Visit the Farm is a fun and entertaining journey for a young child to find out interesting facts about the world's most common farm animals along with baby animals. The Let's visit series is particularly aimed at the 0-5 age group but it can be used for any beginner readers who are interested in farm animals. This children's book contains high quality images of farm animals. It has been optimized to look great on all devices. With the number of great reviews I have been getting I feel that my Let's Visit book series is one of the best new children's book series of 2014 to hit the e book market. Don't forget to check out the other books within the series.

**Hide and Seek! Amazing Hidden Picture Activity Book for Kids** Jupiter Kids, 2017-02-15 Hidden picture activities should be encouraged among children because of all the benefits they promise. For instance, hidden pictures ensure familiarization of objects and pictures based on their features. This means that regardless of the presentation, a child would still be able to recognize a flower, a dog, and a table, and so on. This skill is very important in learning math and science later on.
