*Alien Orders* Johnnie West, 2022-02-07 Do you know the four types of aliens that have hidden themselves amongst governments and armed services throughout the world? No. Well, neither did Air Force Captain Scott Ryan until one night when he encountered a UFO while flying a training mission and was ordered by his superiors to forget what he saw. When Scott learns that airmen at his base had been experiencing the same thing he did for years, he ignores the order and begins digging deeper. Scott's investigation quickly snowballs from innocent research into revelations of a covert war between humans and aliens and a full-blown government conspiracy and coverup. With a group of aliens known as the Naturals going extinct, they are creating more and more alien-human hybrids to ensure their survival, a process that threatens human free will and existence. With the survival of both humans and aliens at stake, Captain Ryan suddenly becomes the only man with enough knowledge to stop the Naturals or to join them. Winner of two 2022 BookFest awards recognizing best science fiction and fantasy books and a 2022 Literary Titan Book Award.

[The Alien Years](#) Robert Silverberg, 1998-08-05 Science fiction roman

**The War of the Worlds (1898).** By: H. G. Wells H. G. Wells, 2018-04-25 The narrative opens by stating that as humans on Earth busied themselves with their own endeavours during the 1890s, aliens on Mars began plotting an invasion of Earth to replenish their limited resources. In 1899, the narrator is invited to an astronomical observatory at Ottershaw, where explosions are seen on the surface of the planet Mars, creating much interest in the scientific community. Later, a meteor lands on Horsell Common near the unnamed narrator's home in Woking, Surrey. He is among the first to discover that the object is an artificial cylinder that opens, disgorging Martians who are big and greyish with oily brown skin, the size perhaps of a bear, each with two large, dark-coloured eyes and lipless V-shaped mouths which drip saliva and are surrounded by two Gorgon groups of tentacles. The narrator finds them at once vital, intense, inhuman, crippled, and monstrous. They briefly emerge, have difficulty in coping with the Earth's atmosphere and gravity, and rapidly retreat into their cylinder. A human deputation which includes the astronomer Ogilvy approaches the cylinder with a white flag, but the Martians incinerate them and others nearby with a heat ray before beginning to assemble their machinery. Military forces arrive that night to surround the common, including Maxim guns. The population of Woking and the surrounding villages are reassured by the presence of the British Army. A tense day begins with much anticipation of military action by the narrator. After heavy firing from the common and damage to the town from the heat ray which suddenly erupts in the late afternoon, the narrator takes his wife to safety in nearby Leatherhead where his cousin lives, using a rented two-wheeled horse cart. He then returns to Woking to return the cart when, in the early morning hours, a violent thunderstorm erupts. On the road during the height of the storm, he has his first terrifying sight of a fast-moving Martian fighting machine. In a panic, he crashes the horse cart, barely escaping detection. He discovers the Martians have assembled towering three-legged fighting machines, tripods, each armed with a heat ray and a chemical weapon, the poisonous black smoke. These tripods have wiped out the army units positioned around the cylinder and attacked and destroyed most of Woking. Sheltering in his house, the narrator sees a fleeing

artilleryman moving through his garden who later tells the narrator of his experiences and mentions that another cylinder has landed between Woking and Leatherhead cutting off the narrator from his wife The two try to escape via Byfleet just after dawn but are separated at the Shepperton to Weybridge Ferry during a Martian afternoon attack on Shepperton One of the Martian fighting machines is brought down in the River Thames by artillery as the narrator and countless others try to cross the river into Middlesex as the Martians retreat back to their original crater This gives the authorities precious hours to form a defence line covering London After the Martians temporary repulse the narrator is able to float down the Thames in a boat toward London stopping at Walton where he first encounters the curate his companion for the coming weeks Herbert George Wells 21 September 1866 13 August 1946 usually referred to as H G Wells was an English writer He was prolific in many genres writing dozens of novels short stories and works of social commentary satire biography and autobiography including even two books on war games *The War of the Worlds* H G (Herbert George) Wells,2025-03-28 H G Wells s The War of the Worlds remains a cornerstone of science fiction exploring the terrifying potential of alien invasion This classic novel depicts a chilling encounter with Martians and their devastating technology Experience the original tale of interplanetary conflict and humanity s struggle for survival against an implacable foe A timeless exploration of fear resilience and the unknown The War of the Worlds continues to captivate readers with its vivid imagery and thought provoking themes This edition preserves the original text offering an authentic reading experience of a groundbreaking work of space exploration and first contact Delve into a world where the familiar is threatened by the unimaginable and discover why Wells s vision has resonated for generations This work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it This work is in the public domain in the United States of America and possibly other nations Within the United States you may freely copy and distribute this work as no entity individual or corporate has a copyright on the body of the work Scholars believe and we concur that this work is important enough to be preserved reproduced and made generally available to the public We appreciate your support of the preservation process and thank you for being an important part of keeping this knowledge alive and relevant *From Alien Invasion to Time Travel* Knatia Parson,2017-04-10 This book is a collection of 350 science fiction writing prompts It contains 14 sections featuring various sub genres of science fiction The sub genres are Alien Invasion Alternate History Apocalyptic Crime Science Fiction Cross Genre Hard Science Fiction Maritime Science Fiction Military Science Fiction Science Fiction Fantasy Science Fiction Horror Science Fiction Western Soft Science Fiction Space Opera and Time Travel Prevent writer s block and stay inspired with From Alien Invasion to Time Travel 350 Science Fiction Writing Prompts This book is perfect for writing contests short story inspiration writing groups NaNoWriMo writing workshops or to fuel creativity *The War of the Worlds (Complete)* H.
