

THE ENTREPRENEUR'S GUIDE TO PRODUCTIVITY

A 5-STEP DAY PLANNER

Focus on "output" over the other activity in "input".
You can start the day and realize the need to
use only what is better than your time to work
on your business. Productivity and success in
your business depends on you.

Now, for the next year, I will work on what is good
for the business and not for myself. You can't
do what you need to do for the business and
not for the business and self.

Right now,

1. **Business needs** -
Business needs are the
things that you need to
do to make your
business successful. They
are the things that you
need to do to make it
successful.
2. **Personal needs** -

things that you need to
do to make your
personal life successful.

The 80/20 rule is a concept that is based on the idea of getting more
output with less input. It is often used to describe the relationship between the
output and input of a system. For example, the 80/20 rule can be used to describe the
output and input of a business. It can also be used to describe the
output and input of a person.
