## **Carole A Feuerman Sculpture:**

**Carole A. Feuerman** Carole Feuerman, Dena Merriam, Eleanor C. Munro, 1999 Carole A Feuerman's sculpture combines surrealist technique with a humanist approach to her subjects. This first monograph on her work is filled with David Finn's dramatic photographs covering two decades of her work including many enlarged details and multiple views providing a cinematic almost three-dimensional experience. The work in resin, cast marble, bronze, and other materials often painted ranges from early erotic reliefs through full-scale sculptures of athletes and nudes. Her women at their toilette are sculptural tours de force yet their intimacy recalls Degas's works on similar themes. Recent fragments and body mappings are experiments with abstraction, deconstruction, and conceptualism at the same time that they explore the emotional life of their subjects, penetrating to their spirit. All of Feuerman's work reflects the two aspects of her vision. Her work is motivated by questions about the nature of reality, and her remarkable skill as an artist leads the viewer to the same questions. Yet beyond the simulacrum of reality, Feuerman also manages to convey the feeling behind the intense physicality, the passion and sensuality behind the seemingly mundane pose.

**BOOK JACKET Title Summary** field provided by Blackwell North America Inc. All Rights Reserved [My Hyperrealist Life And Legacy](#) Carole A. Feuerman, 2022-02-03 My autobiography dives deep into the experiences I faced in my life. It highlights my struggles to survive the odds through balance, perseverance, and independence on my journey to fulfilling my true calling as one of the most successful, sought-after, and prosperous artists today. By telling my real-life stories, I hope to educate my readers and help them to overcome their difficulties and live a satisfying life. I give practical strategies that will teach them how to form good habits, break bad ones, and master the tiny behaviors that lead to remarkable results. Whether by finding new work, achieving financial success, or contemplating failure, fear has a special place in our emotional life. Feeling anxious, uncertain, and overwhelmed. Our minds are designed to let fear in without it, we'd never survive. But how do we keep suspicion away from restricting our ability to fulfill our goals? Conquering fear is about self-awareness and understanding our inner strengths, often in the face of overcoming odds. My book can be your guide to practicing and cultivating the personality traits needed to be successful.

**Carole A. Feuerman** John T. Spike, 2019 Carole A Feuerman is celebrated as a pioneer and one of America's major exponents of Hyperrealism in sculpture alongside Duane Hanson and John De Andrea. Born 1945 and educated in New York and Philadelphia, she began as an illustrator before turning to sculpture in the 1970s, soon gaining much recognition and early success. Her work has been displayed in many group shows and solo exhibitions at private galleries and public museums, as well as at major art fairs in America, Europe, and Asia. Over five decades, Feuerman has created visual manifestations of stories telling of strength, survival, and balance. Her subject matter is the human figure, most often a woman in an introspective moment of exuberant self-consciousness, shaded by erotic lassitude. Feuerman's works represent a female state of mind rather than an alluring body meant to attract the male gaze. They suggest that women look at themselves differently from men looking at them, that a

woman is more innately creative than a man This book is the most comprehensive survey of Feuerman s oeuvre to date Lavishly illustrated in color throughout it demonstrates the variety of materials and media she uses and highlights the specific qualities of her figures

**Feuerman, Superrealist Sculptures** Demetrio Paparoni,2024 **Carole Feuerman , Materials and Processes of Contemporary Sculpture** Mahmoud Farag,2020-01-17 Creating a successful sculpture requires an imaginative concept and a sound design that utilize the potential and avoid the limitations of the material and the process used in making it Prior to a few decades ago most sculptors were restricted to carving stone and wood or casting plaster ceramics and bronze for their creations Contemporary sculptors however are no longer bound by the limitations of these traditional materials and processes and can now create works in sizes forms and textures that could not have been achieved previously Many modern sculptures are now made from materials ranging from steel and aluminum to plastics and composites using processes ranging from welding and adhesive bonding to molding and 3D printing To fully utilize the full potential of such new materials the sculptor needs to understand their points of strength their limitations and the most effective way of shaping them to achieve a given design Although this book is written by a materials engineer the subject matter is presented from the point of view of the sculptor with emphasis

on the strengths and weaknesses of different materials their resistance to weather conditions natural color and possible surface textures possible methods of shaping and joining tools and equipment needed and safety measures to take Whenever possible case studies are used to illustrate the sequence of processes and the cost elements involved in shaping a given material to create an actual work of sculpture
