Enhancing Professional Practice Charlotte Danielson, 1996 This framework identifies those aspects of a teacher's responsibilities that have been documented through empirical studies and theoretical research as promoting improved student learning **With Literacy and Justice for All** Carole Edelsky, 1991 This volume presents analyses of educational and research practices with the first part highlighting bilingual education and the second part focusing on whole language and progressive ways of evaluating students The book concludes by reiterating the socio political nature of literacy **El-Hi Textbooks & Serials in Print, 2003**, 2003

**Psychology and Educational Practice** Herbert J. Walberg, Geneva D. Haertel, 1997 **In Defense of Good Teaching** Kenneth S. Goodman, 1998 Is whole language the cause of the problems that beset our schools Is the debate between whole language and phonics a cover up for control of what and how students learn Is it appropriate that legislators lobbyists textbook publishers and private interest groups evaluate and promote research on teaching and learning Is Christian fundamentalism being exploited by political and economic groups Is the attack on whole language supported by research that is valid Is the issue of teaching reading now so polarized that even a balanced

approach is no longer acceptable in some schools. These questions have come out of the reading wars. And teachers now must be articulate and knowledgeable defendants of their own positions in the debate if they are to retain control of their profession. *In Defense of Good Teaching* is the whole language community's first concerted response to its attackers. It reveals some disturbing truths in the reading wars: deliberate misrepresentation of ideas about the role of the press, conflicting political agendas played out in our schools, teachers and administrators marginalized for their beliefs and commercial interests dressed up as scientific research. This is an alarming and enlightening book and as the dispute broadens to affect teaching of math and bilingual education, it is an important book. It will be invaluable to teachers who want the means and strategies to respond to criticism, to analyze arguments and to defend their position. More is at stake than whole language.

**Reading for All** Sylvia Edwards, 1999. Aims to help raise achievement for all children, particularly those with special educational needs, by helping teachers to coordinate the process of inclusion and to meet the requirements of the Literacy Hour. The text should enable teachers to plan a differentiated reading curriculum for the benefit of all pupils, integrate IEP targets in the normal routine of the classroom, assess reading progress more effectively, make the most of the Literacy Hour and develop team approaches to pupils' reading development through the coordinated use of learning support staff and parents.

**School Psychology Review**, 2005    [Early Literacy Instruction](#) John A. Smith, Sylvia Read, 2005. This introductory K-3 literacy instruction text details authentic classroom practice by authors who have recently taught in primary and elementary classrooms. Organized around a comprehensive reading and writing instructional framework, the text balances the authors' rich classroom experiences with a theoretical perspective. The authors also share a wealth of practical teaching strategies, authentic student artifacts and real teaching examples. The chapter opening vignettes demonstrate real world classroom encounters; the phonics and assessment chapters provide especially useful classroom guidance and the effective strategies offered to help English Language Learners and Struggling Readers in Chapter 11 and in text features throughout the book make this new text a valuable choice for teacher education.
