Excerpt: There among some young pine trees and furze bushes I stopped panting and waited for further developments. The common round the sand pits was dotted with people standing like myself in a half fascinated terror, staring at these creatures or rather at the heaped gravel at the edge of the pit in which they lay. And then with a renewed horror I saw a round black object bobbing up and down on the edge of the pit.

**The War of the Worlds** H. G. Wells, 2013-05-17. The War of the Worlds is a science fiction novel by H G Wells. It is the first person narrative of an unnamed protagonist's adventures in London and the countryside southwest of London as Earth is invaded by Martians. The War of the Worlds has two parts Book One The Coming of the Martians and Book Two The Earth under the Martians. The narrator, a philosophically inclined author, struggles to return to his wife while seeing the Martians lay waste to southern England. The plot has been related to invasion literature of the time. The novel has been variously interpreted as a commentary on evolutionary theory, British imperialism and generally Victorian fears and prejudices. At the time of publication it was classified as a scientific romance like his earlier novel The Time Machine. The War of the Worlds has been both popular and influential, spawning half a dozen feature films, radio dramas, various comic book adaptations, a television series and sequels or parallel stories by other authors.
