Computer Skills Placement Test

Carolyn R. Weller, Jim Houston

Computer Skills Placement Test:

Assessment and Teaching of 21st Century Skills Esther Care, Patrick Griffin, Mark Wilson, 2017-11-07 This book provides a detailed description of research and application outcomes from the Assessment and Teaching of 21st Century Skills project which explored a framework for understanding the nature of these skills The major element of this new volume is the presentation of research information from the global assessment of two 21st century skills that are amenable to teaching and learning collaborative problem solving and learning in digital networks The outcomes presented include evidence to support the validity of assessment of 21st century skills and descriptions of consequent pedagogical approaches which can be used both to teach the skills and to use them to enhance key learning goals in secondary education systems The sections of the volume are connected through a focus on the degree to which innovative assessment tasks measure the constructs of interest This focus is informed by conceptual and methodological issues associated with affordances of 21st century computer based assessment How understanding of the nature of the skills as derived from these assessments can guide approaches to the integration of 21st century skills in the classroom is informed by initiatives adopted by participating countries The guiding questions in this volume are Do the assessment tasks measure the constructs and What are the implications for assessment and teaching in the classroom It is the third volume of papers from this project published by Springer

Assessment in Online and Blended Learning Environments Selma Koç, Xiongyi Liu, Patrick Wachira, 2015-03-23 This book examines assessment in online and blended learning offering research based strategies and practical insights for educators It explores effective methods technology tools and best practices to enhance teaching student engagement and learning outcomes

Preparing Students for College and Careers Katie Larsen McClarty, Krista D. Mattern, Matthew N. Gaertner, 2017-08-22 Preparing Students for College and Careers addresses measurement and research issues related to college and career readiness Educational reform efforts across the United States have increasingly taken aim at measuring and improving postsecondary readiness These initiatives include developing new content standards redesigning assessments and performance levels legislating new developmental education policy for colleges and universities and highlighting gaps between graduates skills and employers needs In this comprehensive book scholarship from leading experts on each of these topics is collected for assessment professionals and for education researchers interested in this new area of focus Cross disciplinary chapters cover the current state of research best practices leading interventions and a variety of measurement concepts including construct definitions assessments performance levels score interpretations and test uses The Open Access version of this book available at <http://www.taylorfrancis.com> has been made available under a Creative Commons Attribution Non Commercial No Derivatives 4.0 license
