American Journal of Physics, 1989 **Principles of Physics** Raymond A. Serway, John W. Jewett, 2002 This successful text was the first to address the latest trends in the market as suggested by the Introductory University Physics Project (IUPP) guidelines. PRINCIPLES OF PHYSICS features a concise approach to traditional topics, an early introduction to modern physics and the integration of contemporary topics throughout the text. In addition to a streamlined presentation, it also encourages analytical reasoning and a conceptual understanding of physics through contemporary applications and critical thinking exercises. This text represents an evolutionary approach rather than a revolutionary approach. This third edition contains many new pedagogical features, most notably a contextual approach to enhance motivation, an increased emphasis on avoiding misconceptions through the inclusion of Pitfall Preventions and a problem solving strategy that uses a modeling approach.

Illinois Chemistry Teacher, 2003 **Physics for Scientists and Engineers with Modern Physics** Raymond A. Serway, Robert J. Beichner, 2000 This best selling calculus based text is recognized for its carefully crafted logical presentation of the basic concepts and principles of physics. The book is available in single hardcover volumes, 2 volume hardcover sets and 4 or 5 volume softcover sets. Raymond Serway, Robert Beichner and contributing author John W. Jewett present a strong problem solving approach that is further enhanced through increased realism in worked examples. Problem solving strategies and hints allow students to develop a systematic approach to completing homework problems. The outstanding ancillary package includes full multimedia support, online homework and a content rich Web site that provides extensive support for instructors and students. The CAPA (Computer assisted Personalized Approach), WebAssign and University of Texas homework delivery systems give instructors flexibility in assigning online homework.
