At the end of the module, they are challenged to analyze a construction site that has no power and decide which simple machine is most appropriate for each task. Each Teacher Guide includes specific teaching and management strategies, detailed teaching sequences for teaching the first three phases of the Learning Experience (Getting Started, Exploring and Discovering, and Processing For Meaning), reproducible masters for Student Science Notebook pages, Group Recording Sheets, and Home School Worksheets, Extension activities in science, language arts, and social studies, Assessment materials, an introductory questionnaire, embedded assessments, and a final questionnaire consisting of performance and written components. Science Background provides general science concepts as they are introduced and developed in the module to help prepare teacher, Teacher and Student Resources section, annotated lists of children's books, teacher reference books, and technological aids. **ENC Focus**, 1999 *Conceptual Physics* Paul G.
