Concern Zambia Procurement:

Assessment of the fertilizer market and bulk procurement system in the United Republic of Tanzania Bumb, B. L., Ariga, J., Anand, M., Cameron, A. & Nkonya, N.M., 2021-04-19 The United Republic of Tanzania has a predominantly agricultural economy with agriculture accounting for more than two thirds of employment in rural areas and representing 30 percent of GDP Yet by global standards and even by the standards of Developing Countries crop yields in the country are low Using improved seeds and mineral fertilizers is therefore critical to promoting growth in crop productivity food production and sustaining the natural resource base especially among the smallholder farmers who subsist on nutrient poor soils In 2016 The Ministry of Agriculture Livestock and Fisheries MALF of the United Republic of Tanzania requested an assessment of the potential costs and benefits of a proposed Bulk Procurement System BPS for fertilizer imports that would consolidate international procurement to save costs ultimately improving the affordability for farmers This assessment was jointly carried out and submitted to MALF in 2017 by FAO and the International Fertilizer Development Centre IFDC and presents an analysis of the fertilizer market the proposed BPS policy and interviews with over one hundred public private and civil society stakeholders The findings indicate that the proposed system would likely not reduce prices for farmers and could negatively affect availability and market competition causing prices to increase in the long term The authors therefore recommend against its implementation pending further consultations or to pilot the system with careful review and evaluation The report also presents alternative policy options for the short and medium term to improve overall efficiency in the value chain and ultimately make fertilizer more affordable for Tanzanian smallholder farmers Zambia Christopher Adam, Paul Collier, Michael Gondwe, 2014-09-18 Zambia is a landlocked mineral dependent country in Southern Africa whose history is intimately entwined with the copper mining industry Having gained Independence from Britain in 1964 at the height of a copper boom the country experienced a slow and painful economic decline over the next quarter century However following a traumatic and protracted process of economic adjustment through the 1990s and early 2000s Zambia's economic potential is now better than it has been at any time since Independence This book which contains a set of rigorous but accessible essays by a range of Zambian and international scholars seeks to examine the challenges and opportunities that currently face Zambian policymakers as they seek to harness the country's valuable natural assets to broad based and sustainable economic growth over the coming decades Written in a non technical manner by leading scholars in the field the chapters address key challenges in the areas of natural resource management agriculture trade employment and migration education finance and investment This is the second volume in the Africa Policies for Prosperity series following on from the successful first volume on Kenya *Government Procurement Practices in Selected African Countries*, 1966 **Zambia**, 2004-01-01 Zambia's economy is not growing fast Poverty is on the rise The quality of economic governance is on the decline And public resources are not well spent The badly needed first steps to reverse this situation are to start getting the budgetary

allocations right and to make sure those allocations go where they re intended Addressing the longstanding challenges that Zambia faces in public expenditure management will require strong political will For Zambia to assure that public accountability is enduring and not dependent on the government of the day it must strengthen budget processes and institutions that can provide public oversight and promote basic checks and balances This report provides an analysis of how Zambia can strengthen budgetary processes and institutions for accountability and effective service delivery to its citizens

Public Procurement and Labour Rights Maria Anna Corvaglia,2017-09-21 This book investigates patterns of fragmentation and coherence in the international regulatory architecture of public procurement In the context of the major international instruments of procurement regulation the book studies the achievement of social and labour policies the most controversial and problematic instrumental uses of public procurement practices This work offers an innovative comparative approach discussing the ways in which the different international instruments namely the EU Procurement Directives the WTO Agreement on Government Procurement the UNCITRAL Model Law and the World Bank s Procurement Framework are able to implement labour and social purposes and at the same time ensure a regulatory balance with the principles of efficiency and non discrimination Scholarly rigorous and timely this will be important reading for international trade lawyers and procurement practitioners *OECD Journal on Development* ,2009
