**Classic Readings and Cases in the Philosophy of Law** Susan Dimock, 2016-09-16 With over sixty cases as support this text presents the philosophy of law as a perpetual series of debates with overlapping lines and cross connections Using law as a focus to bring into relief many social and political issues of pressing importance in contemporary society this book encourages readers to think critically and philosophically Classic Readings and Cases in the Philosophy of Law centers on five major questions What is law What if any connection must there be between law and morality When should law be used to restrict the liberty of individuals To what extent should democratic states permit civil disobedience What if anything justifies the infliction of punishment on those who violate the law The extensive anthology of cases covers the mundane to the grandest of constitutional issues including controversial topics like ownership of genetic material capital punishment and gay rights Brief introductions to each case describe the central issue being litigated the legal reasoning of the justices both majority and dissenting the decision of the court and its philosophical significance **Classic Case Studies in Psychology**

Geoff Rolls, 2014-11-26 The human mind is both extraordinary and compelling But this is more than a collection of case studies it is a selection of stories that illustrate some of the most extreme forms of human behaviour From the leader who convinced his followers to kill themselves to the man who lost his memory from the boy who was brought up as a girl to the woman with several personalities Geoff Rolls illustrates some of the most fundamental tenets of psychology Each case study has provided invaluable insights for scholars and researchers and amazed the public at large Several have been the inspiration for works of fiction for example the story of Kim Peek the real Rain Man This new edition features three new case studies including the story of Charles Decker who was tried for the attempted murder of two people but acquitted on the basis of a neurological condition and Dorothy Martin whose persisting belief in an impending alien invasion is an illuminating example of cognitive dissonance In addition each case study is contextualized with more typical behaviour while the latest thinking in each sub field is also discussed Classic Case Studies in Psychology is accessibly written and requires no prior knowledge of psychology just an interest in the human condition It is a book that will amaze sometimes disturb but above all enlighten its readers **Classics of the Bar** Alvin Victor Sellers, 1915 **Murder in America** Ronald M. Holmes, Stephen T. Holmes, 1994 This book is an informative and easy to read account of different aspects of murder in the United States It covers a wide range of topics from serial killings to terrorism but concentrated mainly on the perpetrators of homicide rather than the victims of such crime The book provides a good introduction to the subject Robert Gibb in Criminal Behaviour and

Schneider,2004-05-17 At a time when two dominant worldviews nihilistic relativism and dogmatic fundamentalism threaten to tear our world asunder Rediscovery of Awe offers a timely and restorative alternative It weds faith to doubt and the depth and pathos of religiousity to the openness and discernment of science As Schneider says in his introduction The starting point of consciousness is awe We humans first experience the world cosmos as overwhelming From the moment we are aware we are aware of our meagerness From the moment we reflect on the world we sense how hopeless helpless and vulnerable we are And yet close on the heels of this shuddering despair is a riveting sense of possibility We are thrilled enthralled and exalted by our condition as much as it overpowers us There are many problems with conventional maxims of balance The conventional center is a rather dull and static one and not at all what I have in mind with my notion of a fluid center What then do I have in mind and how are we to cultivate it in this atrophied world We will explore these questions over a broad range of psychological domains from personality to psychotherapy and from society to religion and spirituality      **Pennsylvania Medical Journal (1897-1923).** ,1917
