*Geek Sublime* Vikram Chandra, 2014-09-02 The nonfiction debut from the author of the international bestseller *Sacred Games* about the surprising overlap between writing and computer coding Vikram Chandra has been a computer programmer for almost as long as he has been a novelist In this extraordinary new book his first work of nonfiction he searches for the connections between the worlds of art and technology Coders are obsessed with elegance and style just as writers are but do the words mean the same thing to both Can we ascribe beauty to the craft of writing code Exploring such varied topics as logic gates and literary modernism the machismo of tech geeks the omnipresence of an Indian Mafia in Silicon Valley and the writings of the eleventh century Kashmiri thinker Abhinavagupta *Geek Sublime* is both an idiosyncratic history of coding and a fascinating meditation on the writer's art Part literary essay part technology story and part memoir it is an engrossing original and heady book of sweeping ideas

**Geek Sublime** Vikram Chandra, 2014 Vikram Chandra is the award winning author of two acclaimed novels and a collection of short stories and has been a computer programmer for almost as long as he has been a writer In this book he looks at the connection between these two worlds of art and technology

Mirrored Mind Vikram Chandra, 2013-11-15 Vikram Chandra has been a computer programmer for almost as long as he has been a novelist In this extraordinary book he returns to his early days as a writer when he was beginning *Red Earth* and *Pouring Rain* and looks at the connections between these two worlds of art and technology Coders are obsessed with elegance and style just as writers are but do the words mean the same thing to both And is it a coincidence that Chandra is drawn to two seemingly opposing ways of thinking To answer his questions Chandra delves into the writings of Abhinavagupta the tenth and eleventh century Kashmiri thinker and creates an idiosyncratic history of coding Part literary theory part tech story and part memoir *Mirrored Mind* is a book of sweeping ideas It is a heady and utterly original work

**Popular Postcolonialisms** Nadia Atia, Kate Houlden, 2018-07-04 Drawing together the insights of postcolonial scholarship and cultural studies *Popular Postcolonialisms* questions the place of the popular in the postcolonial paradigm Multidisciplinary in focus this collection explores the extent to which popular forms are infused with colonial logics and whether they can be employed by those advocating for change It considers a range of fiction film and non hegemonic cultural forms engaging with topics such as environmental change language activism and cultural imperialism alongside analysis of figures like Tarzan and Frankenstein Building on the work of cultural theorists it asks whether the popular is actually where elite conceptions of the world may best be challenged It also addresses middlebrow cultural production which has tended to be seen as antithetical to radical traditions asking whether this might in fact form an unlikely realm from which to question critique or challenge colonial tropes Examining the ways in which the imprint of colonial history is in evidence interrogated mythologized or sublimated within popular cultural production this book raises a series of speculative questions exploring the interrelation of the popular and the postcolonial
